Summary of Fair Value Disclosure as of March 31, 2025 (Unaudited)

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period, and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

- Level 1 Unadjusted, quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the date of measurement.
- Level 2 Other significant observable inputs (including, but not limited to, quoted prices in active markets for similar instruments, quoted prices in markets that are not active for identical or similar instruments model-derived valuations in which all significant inputs and significant value drivers are observable in active markets, such as interest rates, prepayment speeds, credit risk curves, default rates, and similar data).
- Level 3 Significant unobservable inputs for the asset or liability, to the extent relevant observable inputs, are not available, are representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The following is a summary of the fair valuation hierarchy of the Fund's securities as of March 31, 2025:

	Level 1	Level 2	Level 3	<u>Total</u>
