

MANAGER DIRECTED PORTFOLIOS

Vert Global Sustainable Real Estate ETF (VGSR)

Listed on Nasdaq Stock Market LLC

STATEMENT OF ADDITIONAL INFORMATION
November 9, 2023

This Statement of Additional Information (“SAI”) provides general information about the Vert Global Sustainable Real Estate ETF (the “Fund”), a series of Manager Directed Portfolios (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Fund’s current prospectus dated November 9, 2023 (the “Prospectus”), as supplemented and amended from time to time. You may obtain a copy of the Prospectus and/or the Predecessor Fund’s annual and semi-annual reports to shareholders, at no charge, by contacting the Fund at the address or toll-free telephone number below, or by visiting the Fund’s website at www.vertfunds.com.

The Fund is the successor to the Vert Global Sustainable Real Estate Fund (the “Predecessor Fund”), a series of the Trust. The financial statements of the Predecessor Fund for the fiscal year ended June 30, 2023 included in the Annual Report to shareholders, and the report dated August 29, 2023 of Cohen & Company, Ltd., an independent registered public accounting firm, related thereto are incorporated into this SAI by reference. No other parts of the [Annual Report](#) (File No. 811-21897) are incorporated herein by reference.

GENERAL INFORMATION

The Fund is an exchange-traded fund that is a diversified, separate series of the Trust. The Trust is an open-end management investment company consisting of multiple investment series. This SAI relates to the Fund. The Trust was organized as a Delaware statutory trust on April 4, 2006. The Trust is registered with the U.S. Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (together with the rules and regulations adopted thereunder, as amended, the “1940 Act”), as an open-end management investment company and the offering of the Fund’s shares (“Shares”) is registered under the Securities Act of 1933, as amended (the “Securities Act”). The Trust is governed by its Board of Trustees (the “Board”). The Declaration of Trust permits the Board to establish series of shares, each of which constitutes a series separate and distinct from the shares of the other series.

Vert Asset Management, LLC (the “Advisor”) serves as the investment advisor to the Fund. Dimensional Fund Advisors LP (the “Sub-Advisor”) is the Fund’s sub-advisor. Effective on or about December 4, 2023, the Predecessor Fund is expected to reorganize into the Fund (the “Reorganization”). Prior to the Reorganization, the Fund was a “shell” fund with no assets and had not commenced operations. The Fund will adopt the performance and financial history of the Predecessor Fund. As part of the Reorganization, shareholders of the Predecessor Fund will receive Shares of the Fund. Information shown in this SAI for periods prior to December 4, 2023 relates to the Predecessor Fund.

The Fund offers and issues Shares at their net asset value (“NAV”) only in aggregations of a specified number of Shares (each, a “Creation Unit”). The Fund generally offers and issues Shares in exchange for a basket of securities (“Deposit Securities”) together with the deposit of a specified cash payment (“Cash Component”). The Trust reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any Deposit Security. Shares are listed on the Nasdaq Stock Market LLC (the “Exchange”) and trade on the Exchange at market prices that may differ from the Shares’ NAV. Shares are also redeemable only in Creation Unit aggregations, primarily for a basket of Deposit Securities together with a Cash Component. A Creation Unit of the Fund generally consists of 25,000 Shares, though this may change from time to time. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, Shares are not redeemable securities.

Shares may be issued in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit with the Trust cash at least equal to a specified percentage of the value of the missing Deposit Securities, as set forth in the Participant Agreement (as defined below). The Trust may impose a transaction fee for each creation or redemption. In all cases, such fees will be limited in accordance with the requirements of the SEC applicable to management investment companies offering redeemable securities. As in the case of other publicly traded securities, brokers’ commissions on transactions in the secondary market will be based on negotiated commission rates at customary levels.

INVESTMENT POLICIES, STRATEGIES AND ASSOCIATED RISKS

The following information supplements the information concerning the Fund’s investment objective, policies and limitations found in the Prospectus.

Investment Objective

The Fund seeks to achieve long-term capital appreciation. The Fund’s investment objective may be changed without the approval of the Fund’s shareholders upon Board approval and 60 days’ prior written notice to shareholders. However, the Fund will not make any change in its investment policy of investing at least 80% of its net assets in investments suggested by the Fund’s name without first changing the Fund’s name and providing shareholders with at least 60 days’ prior written notice.

Diversification Status

The Fund is diversified. Under applicable federal laws, to qualify as a diversified fund, the Fund, with respect to 75% of its total assets, may not invest more than 5% of its total assets in any one issuer and may not hold more than 10% of the voting securities of any one such issuer. The remaining 25% of the Fund’s total assets does not need to be “diversified” and may be invested in securities of a single issuer, subject to other applicable laws. The diversification of the Fund’s holdings is measured at the time the Fund purchases a security. However, if the Fund

purchases a security and holds it for a period of time, the security may become a larger percentage of the Fund's total assets due to movements in the financial markets. If the market affects several securities held by the Fund, the Fund may have a greater percentage of its assets invested in securities of fewer issuers.

Market and Regulatory Risk; General Market Risks

U.S. and international markets have experienced significant volatility in recent months and years.

Events in the financial markets and economy may cause volatility and uncertainty and affect performance. Such adverse effects on performance could include a decline in the value and liquidity of securities held by the Fund, unusually high and unanticipated levels of redemptions, an increase in portfolio turnover, a decrease in NAV, and an increase in Fund expenses. It may also be unusually difficult to identify both investment risks and opportunities, in which case investment objectives may not be met. Market events may affect a single issuer, industry, sector, or the market as a whole. Traditionally liquid investments may experience periods of diminished liquidity. During a general downturn in the financial markets, multiple asset classes may decline in value and the Fund may lose value, regardless of the individual results of the securities and other instruments in which the Fund invests. It is impossible to predict whether or for how long such market events will continue, particularly if they are unprecedented, unforeseen or widespread events or conditions. Therefore, it is important to understand that the value of your investment may fall, sometimes sharply and for extended periods, and you could lose money.

Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets, strategies, or investments. Policy and legislative changes in the U.S. and in other countries are affecting many aspects of financial regulation and may in some instances contribute to decreased liquidity and increased volatility in the financial markets. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. In addition, economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not the Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic and financial difficulties, the value and liquidity of the Fund's investments may be negatively affected.

Investment Strategies and Associated Risks

Equity Securities. The Fund invests in the equity securities of real estate investment trusts ("REITs") as a principal strategy. Equity securities represent ownership interests, or the rights to acquire ownership interests, in an issuer and include common stocks, preferred stocks, convertible securities, rights and warrants, with different types of equity securities providing different voting and dividend rights and priority if the issuer becomes bankrupt. The value of equity securities varies in response to many factors, including the activities and financial condition of individual companies, the business market in which individual companies compete and general market and economic conditions. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be significant.

Common Stocks. Common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which the Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Large-Capitalization Companies. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-capitalization companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Small- and Mid-Capitalization Companies. Investing in small- and mid-capitalization companies may involve special risks because those companies may have narrower product lines, more limited financial resources, fewer experienced managers, dependence on a few key employees, and a more limited trading market for their stocks, as compared with larger companies. In addition, securities of these companies are subject to the risk that, during certain periods, the liquidity of particular issuers or industries will shrink or disappear with little forewarning as a result of

adverse economic or market conditions, or adverse investor perceptions, whether or not accurate. Securities of small- and mid-capitalization issuers may therefore be subject to greater price volatility and may decline more significantly in market downturns than securities of larger companies. Small- and mid-capitalization issuers may also require substantial additional capital to support their operations, to finance expansion or to maintain their competitive position, and may have substantial borrowings or may otherwise have a weak financial condition, and may be susceptible to bankruptcy. Transaction costs for these investments are often higher than those of large-capitalization companies. There is typically less publicly available information about small- and mid-capitalization companies.

Foreign Investments and Currencies. The Fund may make investments in securities of non-U.S. issuers (“foreign securities”), including U.S. dollar-denominated securities, foreign securities and securities of companies incorporated outside the U.S.

Risks of Investing in Foreign Securities. Investments in foreign securities involve certain inherent risks, including the following:

Political and Economic Factors. Individual foreign economies of certain countries may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, diversification and balance of payments position. Governments in certain foreign countries also continue to participate to a significant degree, through ownership interest or regulation, in their respective economies. Action by these governments could include restrictions on foreign investment, nationalization, expropriation of goods or imposition of taxes, and could have a significant effect on market prices of securities and payment of interest. The economies of many foreign countries are heavily dependent upon international trade and are accordingly affected by the trade policies and economic conditions of their trading partners. Enactment by these trading partners of protectionist trade legislation could have a significant adverse effect upon the securities markets of such countries.

Geopolitical events may cause market disruptions. For example, the United Kingdom (UK) withdrew from the European Union (EU) on January 31, 2020, following a June 2016 referendum referred to as “Brexit.” There is significant market uncertainty regarding Brexit’s longer term ramifications, and the range of possible political, regulatory, economic and market outcomes are difficult to predict. The uncertainty surrounding the UK’s economy may continue to be a source of instability and cause considerable disruption in securities markets, including increased volatility and illiquidity, as well as currency fluctuations in the British pound’s exchange rate against the U.S. dollar. Russia’s assertion of influence in its surrounding region, including its invasion of Ukraine, increases the likelihood of additional sanctions by the U.S. and other countries, which may cause volatility in the markets.

Currency Fluctuations. The Fund may invest in securities denominated in foreign currencies. Accordingly, a change in the value of any such currency against the U.S. dollar will result in a corresponding change in the U.S. dollar value of the Fund’s assets denominated in that currency. Such changes will also affect the Fund’s income. The value of the Fund’s assets may also be affected significantly by currency restrictions and exchange control regulations enacted from time to time.

Market Characteristics. Foreign securities in which the Fund invests will be purchased in over-the-counter markets or on exchanges located in the countries in which the principal offices of the issuers of the various securities are located, if that is the best available market. Foreign exchanges and markets may be more volatile than those in the U.S. While growing in volume, they usually have substantially less volume than U.S. markets, and the Fund’s foreign securities may be less liquid and more volatile than U.S. securities. Moreover, settlement practices for transactions in foreign markets may differ from those in U.S. markets, and may include delays beyond periods customary in the U.S. Foreign security trading practices, including those involving securities settlement where Fund assets may be released prior to receipt of payment or securities, may expose the Fund to increased risk in the event of a failed trade or the insolvency of a foreign broker-dealer.

Legal and Regulatory Matters. Certain foreign countries may have less supervision of securities markets, brokers and issuers of securities, and less financial information available from issuers, than is available in the U.S.

Taxes. The interest and dividends payable on certain of the Fund’s foreign portfolio securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution to Fund shareholders.

Costs. To the extent that the Fund invests in foreign securities, its expense ratio is likely to be higher than those of investment companies investing only in domestic securities, because the cost of maintaining the custody of foreign securities is higher.

Public Health Threats. Various countries throughout the world are vulnerable economically to the impact of a public health crisis, which could depress consumer demand, reduce economic output, and potentially lead to market closures, travel restrictions, and quarantines, all of which would negatively impact the country's economy and could affect the economies of its trading partners.

Emerging and Frontier Markets. The Fund may invest in securities that may be located in developing or emerging and frontier markets, and therefore entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

In considering whether to invest in the securities of a foreign company, the Advisor and the Sub-Advisor may consider such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Fund will be invested in foreign companies and countries and depositary receipts will fluctuate from time to time, depending on the Advisor's or the Sub-Advisor's assessment of prevailing market, economic and other conditions.

Exchange-Traded Funds. The Fund may invest in shares of other investment companies (including ETFs). As the shareholder of another ETF, the Fund bears, along with other shareholders, its pro rata portion of the other ETF's expenses, including advisory fees. Such expenses are in addition to the expenses the Fund pays in connection with its own operations. The Fund's investments in other ETFs may be limited by applicable law.

Disruptions in the markets for the securities underlying ETFs purchased or sold by the Fund could result in losses on investments in ETFs. ETFs also carry the risk that the price the Fund pays or receives may be higher or lower than the ETF's NAV. ETFs are also subject to certain additional risks, including the risks of illiquidity and of possible trading halts due to market conditions or other reasons, based on the policies of the relevant exchange. ETFs and other investment companies in which the Fund may invest may be leveraged, which would increase the volatility of the Fund's NAV.

Futures Contracts and Options on Futures Contracts. The Fund may purchase or sell futures contracts and options on futures contracts for equity securities and indices, to adjust market exposure based on actual or expected cash inflows to or outflows from the Fund.

A futures contract obligates the seller to deliver (and the purchaser to take delivery of) the specified security on the expiration date of the contract. An index futures contract obligates the seller to deliver (and the purchaser to take) an amount of cash equal to a specific dollar amount times the difference between the value of a specific index at the close of the last trading day of the contract and the price at which the agreement is made. No physical delivery of the underlying securities in the index is made.

When the Fund writes an option on a futures contract, it becomes obligated, in return for the premium paid, to assume a position in the futures contract at a specified exercise price at any time during the term of the option. If the Fund writes a call, it assumes a short futures position. If it writes a put, it assumes a long futures position. When the Fund purchases an option on a futures contract, it acquires the right in return for the premium it pays to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put).

Whether the Fund realizes a gain or loss from futures activities depends upon movements in the underlying security or index. The extent of the Fund's loss from an unhedged short position in futures contracts or from writing unhedged call options on futures contracts is potentially unlimited. The Fund only purchases and sells futures contracts and options on futures contracts that are traded on a U.S. exchange or board of trade.

No price is paid upon entering into a futures contract. Instead, at the inception of a futures contract the Fund is required to deposit "initial margin" in an amount generally equal to 10% or less of the contract value. Margin also

must be deposited when writing a call or put option on a futures contract, in accordance with applicable exchange rules. Unlike margin in securities transactions, initial margin does not represent a borrowing, but rather is in the nature of a performance bond or good-faith deposit that is returned to the Fund at the termination of the transaction if all contractual obligations have been satisfied. Under certain circumstances, such as periods of high volatility, the Fund may be required by an exchange to increase the level of its initial margin payment, and initial margin requirements might be increased generally in the future by regulatory action.

Subsequent “variation margin” payments are made to and from the futures commission merchant daily as the value of the futures position varies, a process known as “marking-to-market.” Variation margin does not involve borrowing, but rather represents a daily settlement of the Fund’s obligations to or from a futures commission merchant. When the Fund purchases an option on a futures contract, the premium paid plus transaction costs is all that is at risk. In contrast, when the Fund purchases or sells a futures contract or writes a call or put option thereon, it is subject to daily variation margin calls that could be substantial in the event of adverse price movements. If the Fund has insufficient cash to meet daily variation margin requirements, it might need to sell securities at a time when such sales are disadvantageous.

Purchasers and sellers of futures contracts and options on futures can enter into offsetting closing transactions, similar to closing transactions in options, by selling or purchasing, respectively, an instrument identical to the instrument purchased or sold. Positions in futures and options on futures contracts may be closed only on an exchange or board of trade that provides a secondary market. However, there can be no assurance that a liquid secondary market will exist for a particular contract at a particular time. In such event, it may not be possible to close a futures contract or options position.

Under certain circumstances, futures exchanges may establish daily limits on the amount that the price of a futures contract or an option on a futures contract can vary from the previous day’s settlement price. Once that limit is reached, no trades may be made that day at a price beyond the limit. Daily price limits do not limit potential losses because prices could move to the daily limit for several consecutive days with little or no trading, thereby preventing liquidation of unfavorable positions.

If the Fund were unable to liquidate a futures contract or an option on a futures position due to the absence of a liquid secondary market or the imposition of price limits, it could incur substantial losses. The Fund would continue to be subject to market risk with respect to the position. In addition, except in the case of purchased options, the Fund would continue to be required to make daily variation margin payments and might be required to maintain cash or liquid assets in an account.

The Fund will engage in transactions in futures contracts and related options only to the extent such transactions are consistent with the requirements of the Internal Revenue Code of 1986, as amended (the “Code”), for maintaining its qualifications as a regulated investment company (“RIC”) under Section 851 of the Code for federal income tax purposes. Under rules adopted by the U.S. Commodity Futures Trading Commission (“CFTC”), the adviser of an investment company is subject to registration with the CFTC as a “commodity pool operator” (“CPO”) under the Commodity Exchange Act if the investment company is unable to comply with certain trading and marketing limitations.

With respect to investments in derivatives used for purposes other than bona fide hedging purposes, an investment company must meet one of the following tests under the amended regulations in order to claim an exemption from being considered a “commodity pool” or a CPO. First, the aggregate initial margin and premiums required to establish an investment company’s positions in such investments may not exceed five percent (5%) of the liquidation value of the investment company’s portfolio (after accounting for unrealized profits and unrealized losses on any such investments). Alternatively, the aggregate net notional value of such instruments, determined at the time of the most recent position established, may not exceed one hundred percent (100%) of the liquidation value of the investment company’s portfolio (after accounting for unrealized profits and unrealized losses on any such positions). In addition to meeting one of the foregoing trading limitations, the investment company may not market itself as a commodity pool or otherwise as a vehicle for trading in the commodity futures, commodity options or swaps and derivatives markets. In the event that an investment adviser was required to register as a CPO, the disclosure and operations of the Fund would need to comply with all applicable CFTC regulations. Compliance with these additional registration and regulatory requirements would increase operational expenses. Other potentially adverse regulatory initiatives could also develop. If CPO registration is required, the Advisor or Sub-Advisor may avail itself

of the CFTC's rules for CPOs which seek to harmonize CFTC reporting, disclosure and recordkeeping obligations with overlapping U.S. Securities and Exchange Commission ("SEC") regulations. As of the date of this SAI, the Fund does not invest in commodity derivative instruments.

Risks of Futures Contracts and Options Thereon. The ordinary spreads between prices in the cash and futures markets (including the options on futures markets), due to differences in the natures of those markets, are subject to the following factors, which may create distortions. First, all participants in the futures market are subject to margin deposit and maintenance requirements. Rather than meeting additional margin deposit requirements, investors may close futures contracts through offsetting transactions, which could distort the normal relationships between the cash and futures markets. Second, the liquidity of the futures market depends on participants entering into offsetting transactions rather than making or taking delivery. To the extent participants decide to make or take delivery, liquidity in the futures market could be reduced, thus producing distortion. Third, from the point of view of speculators, the deposit requirements in the futures market are less onerous than margin requirements in the securities market. Therefore, increased participation by speculators in the futures market may cause temporary price distortions.

Initial Public Offerings. The Fund may purchase shares in initial public offerings ("IPOs"). Because IPO shares frequently are volatile in price, the Fund may hold IPO shares for a very short period of time. This may increase the turnover of the Fund's portfolio and may lead to increased expenses to the Fund, such as brokerage commissions and transaction costs. By selling shares, the Fund may realize taxable short-term capital gains that, to the extent not offset by losses, will be distributed to the shareholders and taxable to them at ordinary income rates. Investing in IPOs increases risk because IPO shares are frequently volatile in price. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio.

Real Estate Investment Trusts. Equity REITs invest primarily in real property and earn rental income from leasing those properties. They also may realize gains or losses from the sale of properties. Equity REITs generally exercise some degree of control over the operational aspects of their real estate investments, lease terms and property maintenance and repair. Mortgage REITs invest primarily in mortgages and similar real estate interests and receive interest payments from the owners of the mortgaged properties and are paid interest by the owners of the financed properties. Hybrid REITs invest both in real property and in mortgages.

A REIT generally is not taxed on income distributed to its shareholders if it complies with certain federal income tax requirements relating primarily to its organization, ownership, assets and income and, further, if it distributes the vast majority of its taxable income to shareholders each year. Consequently, REITs tend to focus on income-producing real estate investments.

The Fund's investments in REITs may be adversely affected by deteriorations of the real estate rental market, in the case of REITs that primarily own real estate, or by deteriorations in the creditworthiness of property owners and changes in interest rates in the case of REITs that primarily hold mortgages. Equity and mortgage REITs also are dependent upon specialized management skills, may not be diversified in their holdings and are subject to the risks of financing projects. REITs also may be subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. Under certain circumstances, a REIT may fail to qualify for pass-through tax treatment, which would subject the REIT to federal income taxes and adversely affect the Fund's return on its investment in the REIT. In general, qualified REIT dividends that an investor receives directly from a REIT are automatically eligible for the 20% qualified business income deduction. Additionally, in general, a dividend paid by a regulated investment company and reported as a "section 199A dividend" may be treated by the recipient as a qualified REIT dividend for purposes of the 20% qualified business income deduction, if certain holding period and other requirements have been satisfied by the recipient with respect to Shares.

Securities Lending. The Fund may lend securities from its portfolios to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The value of the loaned securities may not exceed one-third of the Fund's total net assets and loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. The Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Fund may pay reasonable administrative and custodial fees

in connection with loans of portfolio securities and may pay a portion of the interest or fee earned thereon to the borrower or a placing broker.

In determining whether or not to lend a security to a particular broker, dealer or financial institution, the Advisor considers all relevant facts and circumstances, including the size, creditworthiness and reputation of the broker, dealer or financial institution. Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Fund any accrued income on those securities. Such payments of accrued income will not constitute qualified dividend income and will be taxable as ordinary income. For loaned securities, the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral. The Fund will be responsible for the risks associated with the investment of the cash collateral, including the risk that the Fund may lose money on the investment or may fail to earn sufficient income to meet its obligations to the borrower. While the Fund does not have the right to vote securities on loan, it would terminate the loan and regain the right to vote if that were considered important with respect to the investment.

Borrowing. The Fund may borrow money for temporary or emergency purposes (not for leveraging or investments). The Fund will limit its borrowing to an amount not in excess of 10% of the Fund's total assets. Such borrowings may be on a secured or unsecured basis at fixed or variable rates of interest. The 1940 Act requires the Fund to maintain continuous asset coverage of not less than 300% with respect to all borrowings. This allows the Fund to borrow for such purposes an amount (when taken together with any borrowings for temporary or emergency purposes as described below) equal to as much as 50% of the value of its net assets (not including such borrowings). If such asset coverage should decline to less than 300% due to market fluctuations or other reasons, the Fund is required to reduce the Fund's debt and restore the 300% asset coverage within three business days, and may be required to dispose of some of its portfolio holdings, even though it may be disadvantageous from an investment standpoint to dispose of assets at that time.

The Fund may also be deemed to be borrowing when entering into certain financing transactions such as reverse repurchase agreements. This type of borrowing is generally referred to as economic leverage.

The use of borrowing by the Fund involves special risk considerations. Since substantially all of the Fund's assets fluctuate in value, whereas the interest obligation resulting from a borrowing will be fixed by the terms of the Fund's agreement with its lender, the asset value per share of the Fund will tend to increase more when its portfolio securities increase in value and decrease more when its portfolio securities decrease in value than would otherwise be the case if the Fund did not borrow funds. In addition, interest costs on borrowings may fluctuate with changing market rates of interest. Under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales. The interest which the Fund must pay on borrowed money, together with any additional fees to maintain a line of credit or any minimum average balances required to be maintained, are additional costs to the Fund.

Illiquid Securities. The Fund may not knowingly invest more than 15% of its net assets in illiquid securities. An illiquid security is a security which the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security. The Advisor and Sub-Advisor make the day-to-day determinations of liquidity pursuant to the Fund's liquidity risk management program, monitor the liquidity of securities held by the Fund and report periodically on the Fund's liquidity to the Board. If the limitations on illiquid securities are exceeded, other than by a change in market values, the condition will be reported by the Advisor to the Board. Illiquid securities include securities issued by private companies and restricted securities (securities where the disposition of which is restricted under the federal securities laws). Rule 144A securities may be treated as liquid securities if they meet the criteria in the Fund's liquidity risk management program. External market conditions may impact the liquidity of portfolio securities and may cause the Fund to sell or divest certain illiquid securities in order to comply with its limitation on holding illiquid securities, which may result in realized losses to the Fund.

Temporary, Cash and Similar Investments. The Fund may, without limit, invest in commercial paper and other money market instruments rated in one of the two highest rating categories by a nationally recognized statistical

ratings organization (“NRSRO”), in response to adverse market conditions, as a temporary defensive position. The result of this action may be that the Fund will be unable to achieve its investment objective. In addition, the Fund may invest in any of the following securities and instruments as a non-principal investment strategy:

Bank Certificates of Deposit, Bankers’ Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers’ acceptances and time deposits. Certificates of deposit are negotiable certificates issued against funds deposited in a commercial bank for a definite period of time and earning a specified return. Bankers’ acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are “accepted” by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers’ acceptances acquired by the Fund will be dollar denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government. If the Fund holds instruments of foreign banks or financial institutions, it may be subject to additional investment risks that are different in some respects from those incurred by a fund that invests only in debt obligations of U.S. domestic issuers. See “Foreign Investments and Currencies” above. Such risks include future political and economic developments, the possible imposition of withholding taxes by the particular country in which the issuer is located on interest income payable on the securities, the possible seizure or nationalization of foreign deposits, the possible establishment of exchange controls or the adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on these securities.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans which may be made and interest rates which may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower, and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Fund may acquire.

In addition to purchasing certificates of deposit and bankers’ acceptances, to the extent permitted under its investment objectives and policies stated above and in the Prospectus, the Fund may make interest bearing time or other interest bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short term notes will consist of issues rated at the time of purchase “A-2” or higher by S&P, “Prime-1” by Moody’s, or similarly rated by another NRSRO or, if unrated, will be determined by the Advisor or the Sub-Advisor to be of comparable quality.

INVESTMENT LIMITATIONS

The Fund has adopted the following investment restrictions as fundamental policies. These restrictions cannot be changed with respect to the Fund without the approval of the holders of a majority of the Fund's outstanding voting securities. For the purposes of the 1940 Act, a "majority of outstanding shares" means the vote of the lesser of: (1) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund's outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Fund. Except with respect to the asset coverage requirement under Section 18(f)(1) of the 1940 Act with respect to borrowing, if any percentage restriction on investment or utilization of assets is adhered to at the time an investment is made, a later change in percentage resulting from a change in the market values of the Fund or its assets or redemptions of shares will not be considered a violation of the limitation. The asset coverage requirement under Section 18(f)(1) of the 1940 Act with respect to borrowings is an ongoing requirement.

As a matter of fundamental policy, the Fund will not:

1. purchase the securities of any one issuer, if as a result, more than 5% of the Fund's total assets would be invested in the securities of such issuer, or the Fund would own or hold 10% or more of the outstanding voting securities of that issuer, provided that: (1) the Fund may invest up to 25% of its total assets without regard to these limitations; (2) these limitations do not apply to securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities; and (3) repurchase agreements fully collateralized by U.S. Government obligations will be treated as U.S. Government obligations;
2. invest 25% or more of its net assets, calculated at the time of purchase and taken at market value, in securities of issuers in any one industry (other than securities issued by the U.S. Government or its agencies, or securities of other investment companies), except that the Fund shall invest more than 25% of its total assets in securities of companies in the real estate industry as described in the Fund's prospectus;
3. borrow money, provided that the Fund may borrow money for temporary or emergency purposes (not for leveraging or investments), and then in an aggregate amount not in excess of 10% of the Fund's total assets;
4. make loans to other persons, except by: (1) purchasing debt securities in accordance with its investment objective, policies and limitations; (2) entering into repurchase agreements; or (3) engaging in securities loan transactions;
5. underwrite any issue of securities, except to the extent that the Fund may be considered to be acting as underwriter in connection with the disposition of any portfolio security;
6. purchase or sell real estate, provided that the Fund may invest in obligations secured by real estate or interests therein or obligations issued by companies that invest in real estate or interests therein, including real estate investment trusts;
7. purchase or sell physical commodities, provided that the Fund may invest in, purchase, sell or enter into financial options and futures, forward and spot currency contracts, swap transactions and other derivative financial instruments; or
8. issue senior securities, except to the extent permitted by the 1940 Act.

With regard to the statement that the restriction set forth in item (2) above does not apply to securities issued by other investment companies, the SEC staff has maintained that a fund should consider the underlying investments of investment companies in which the fund is invested when determining concentration of the fund. The Fund will look through to the underlying holdings of investment companies in which the Fund is invested when determining the concentration of the Fund and its compliance with the restriction provided in item (2).

The following descriptions of certain provisions of the 1940 Act may assist investors in understanding the above policies and restrictions:

Concentration. The SEC has defined concentration as investing 25% or more of the Fund's total assets in an industry or group of industries, with certain exceptions.

Borrowing. The 1940 Act presently allows the Fund to borrow from a bank (including pledging, mortgaging or hypothecating assets) in an amount up to 33 1/3% of its total assets (not including temporary borrowings up to 5% of its total assets). The Fund limits borrowing to 10% of its total assets.

Lending. Under the 1940 Act, the Fund may only make loans if expressly permitted by its investment policies. The Fund's current investment policy on lending is that the Fund may not make loans if, as a result, more than 33 1/3% of its total assets would be lent to other parties, except that the Fund may: (i) purchase or hold debt instruments in accordance with its investment objective and policies; (ii) enter into repurchase agreements; and (iii) engage in securities lending as described in this SAI.

Underwriting. Under the 1940 Act, underwriting securities involves the Fund purchasing securities directly from an issuer for the purpose of selling (distributing) them or participating in any such activity either directly or indirectly.

Real Estate and Commodities. The 1940 Act does not directly restrict the Fund's ability to invest in real estate or commodities, but the 1940 Act requires every investment company to have a fundamental investment policy governing such investments.

Senior Securities. With respect to the restriction set forth in item (8), above, derivatives transactions, short sales and other obligations that create future payment obligations involve the issuance of "senior securities" for purposes of Section 18 of the 1940 Act. The Fund may engage in derivatives transactions in accordance with Rule 18f-4 under the 1940 Act. As of the date of this SAI, the Fund does not intend to engage in derivatives transactions or similar obligations. In addition, borrowings are considered senior securities under the 1940 Act, except the Fund may borrow from a bank in accordance with the asset coverage requirements of the 1940 Act.

EXCHANGE LISTING AND TRADING

Shares are listed for trading and trade throughout the day on the Exchange.

There can be no assurance that the Fund will continue to meet the requirements of the Exchange necessary to maintain the listing of Shares. The Exchange will consider the suspension of trading in, and will initiate delisting proceedings of, the Shares if any of the requirements set forth in the Exchange rules, including compliance with Rule 6c-11(c) under the 1940 Act, are not continuously maintained or such other event shall occur or condition shall exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

The Trust reserves the right to adjust the price levels of Shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

MANAGEMENT OF THE TRUST

Trustees and Officers

The business and affairs of the Trust are managed under the oversight of the Board, subject to the laws of the State of Delaware and the Trust's Agreement and Declaration of Trust. The Board is currently comprised of four trustees who are not interested persons of the Trust within the meaning of the 1940 Act (the "Independent Trustees"). The Trustees are responsible for deciding matters of overall policy and overseeing the actions of the Trust's service providers. The officers of the Trust conduct and supervise the Trust's daily business operations. The mailing address of each Trustee and officer of the Trust is c/o U.S. Bank Global Fund Services, 615 East Michigan Street, Milwaukee, Wisconsin 53202.

Name and Year of Birth	Position(s) Held with the Trust and Length of Time Served ⁽¹⁾	Principal Occupation(s) During the Past Five Years	Portfolios in the Trust Overseen by Trustee ⁽²⁾	Other Directorships Held by Trustee During the Past Five Years
INDEPENDENT TRUSTEES				
Gaylord B. Lyman (Born 1962)	Trustee and Audit Committee Chairman, since April 2015	Chief Investment Officer and Senior Portfolio Manager, Mill Street Financial, LLC, since April 2023; Senior Portfolio Manager, Affinity Investment Advisors, LLC, (2017 – 2023).	9	None
Scott Craven Jones (Born 1962)	Trustee since July 2016 and Lead Independent Trustee since May 2017	Managing Director, Carne Global Financial Services (US) LLC (a provider of independent governance and distribution support for the asset management industry), since 2013; Managing Director, Park Agency, Inc., since 2020.	9	Trustee, Madison Funds, since 2019 (16 portfolios); Trustee, XAI Octagon Floating Rate & Alternative Income Term Trust, since 2017; Trustee, Madison Covered Call & Equity Strategy Fund, since 2021 (1 portfolio).
Lawrence T. Greenberg (Born 1963)	Trustee since July 2016	Senior Vice President and Chief Legal Officer, The Motley Fool Holdings, Inc., since 1996; Venture Partner and General Counsel, Motley Fool Ventures LP, since 2018; Adjunct Professor, Washington College of Law, American University, since 2006; General Counsel, Motley Fool Asset Management, LLC (2008 – 2018); Manager, Motley Fool Wealth Management, LLC (2013 – 2018).	9	None
James R. Schoenike (Born 1959)	Trustee since July 2016	Retired. Distribution Consultant (2018 – 2021); President and CEO, Board of Managers, Quasar Distributors, LLC (2013 – 2018).	9	None

⁽¹⁾ Each Trustee serves an indefinite term; however, under the terms of the Board's retirement policy, a Trustee shall retire during the year in which a Trustee reaches the age of 75.

- (2) The Trust currently has nine active portfolios. As of the date of this SAI, one portfolio of the Trust (the Dakota Emerging Markets Fund) has been registered but has not yet commenced operations.
- (3) Prior to January 1, 2021, Mr. Schoenike was considered to be an “interested person” of the Fund by virtue of his previous position as President of Quasar Distributors, LLC (“Quasar”), the Fund’s distributor.

As of the date of this SAI, no Independent Trustee nor any of his immediate family members (*i.e.*, spouse or dependent children) serves as an officer or director or is an employee of the Advisor, the Sub-Advisor, or the Distributor, or any of their respective affiliates, nor is such person an officer, director or employee of any company controlled by or under common control with such entities.

Name and Year of Birth	Position(s) Held with the Trust and Length of Time Served ⁽¹⁾	Principal Occupation(s) During the Past Five Years
OFFICERS		
Scott M. Ostrowski (Born 1980)	President and Principal Executive Officer, since August 10, 2021	Senior Vice President, U.S. Bancorp Fund Services, LLC, since 2006
Amber C. Kopp (Born 1983)	Secretary, since September 15, 2023	Assistant Vice President, U.S. Bancorp Fund Services, LLC, since 2023; Assistant General Counsel, Corebridge Financial Inc. (previously AIG), 2019–2020
Jill S. Silver (Born 1976)	Chief Compliance Officer and Anti-Money Laundering Compliance Officer, since January 1, 2023	Senior Vice President, U.S. Bancorp Fund Services, LLC, since December 2022; Compliance Director, Corebridge Financial Inc. (previously AIG), 2019–2022; Compliance Manager, Corebridge Financial Inc., 2018–2019
Ryan S. Frank (Born 1985)	Treasurer and Principal Financial Officer, since August 17, 2022	Vice President, U.S. Bancorp Fund Services, LLC, since 2008
Colton W. Scarmardo (Born 1997)	Assistant Treasurer, since August 17, 2022	Fund Administrator, U.S. Bancorp Fund Services, LLC, since 2019; Business Administration Student, 2015–2019
Michael J. Atkinson (Born 1995)	Assistant Treasurer, since August 17, 2023	Assistant Vice President, U.S. Bancorp Fund Services, LLC, since 2022; Officer, U.S. Bancorp Fund Services, LLC, 2019–2022; Fund Administrator, U.S. Bancorp Fund Services, LLC, 2017–2019

⁽¹⁾ Each officer is elected annually and serves until his or her successor has been duly elected and qualified.

Leadership Structure and Responsibilities of the Board and the Committee. The Board has selected Scott Craven Jones to serve as Lead Independent Trustee. The position of Chairman of the Board is vacant and, as Lead Independent Trustee, Mr. Jones acts as Chairman. Mr. Jones’ duties include presiding at meetings of the Board and serving as Chairman during executive sessions of the Independent Trustees; interfacing with management to address significant issues that may arise between regularly scheduled Board and Committee meetings; acting as a liaison with the Trust’s service providers, officers, legal counsel, and other Trustees between meetings; helping to set Board meeting agendas; and performing other functions as requested by the Board from time to time.

The Board meets as often as necessary to discharge its responsibilities. Currently, the Board conducts regular quarterly meetings and may hold special meetings as necessary to address specific issues that require attention prior to the next regularly scheduled meeting. The Board also relies on professionals, such as the Trust’s independent registered public accounting firm and legal counsel, to assist the Trustees in performing their oversight responsibilities.

The Board has established one standing committee – the Audit Committee. The Board may establish other committees or nominate one or more Trustees to examine particular issues related to the Board’s oversight responsibilities, from time to time. The Audit Committee meets regularly to perform its delegated oversight functions and reports its findings and recommendations to the Board. For more information on the Committee, see the section “Audit Committee,” below.

The Board has determined that the Trust's leadership structure is appropriate because it allows the Board to effectively perform its oversight responsibilities.

Audit Committee. The Audit Committee is comprised of all of the Independent Trustees. Mr. Lyman serves as the chairman of the Committee. Pursuant to its charter, the Audit Committee has the responsibility, among others, to (1) select the Trust's independent auditors; (2) review and pre-approve the audit and non-audit services provided by the independent auditors; (3) review the scope of the audit and the results of the audit of the Fund's financial statements; and (4) review with such independent auditors the adequacy of the Trust's internal accounting and financial controls. Mr. Lyman and Mr. Jones serve as the Audit Committee's "audit committee financial experts." During the fiscal year ended June 30, 2023, the Audit Committee met two times with respect to the Predecessor Fund.

Trustee Experience, Qualifications, Attributes and/or Skills. The following is a brief discussion of the experience, qualifications, attributes and/or skills that led to the Board's conclusion that each individual identified below is qualified to serve as a Trustee of the Trust. In determining that a particular Trustee was qualified to serve as a Trustee, the Board has considered a variety of criteria, none of which was controlling. The Board believes that the Trustees' ability to review critically, evaluate, question and discuss information provided to them, to interact effectively with the advisers to the Trust, other service providers, counsel and independent auditors, and to exercise effective business judgment in the performance of their duties, support the conclusion that each Trustee is qualified to serve as a Trustee of the Trust. Many Trustee attributes involve intangible elements, such as intelligence, work ethic, the ability to work together, the ability to communicate effectively and the ability to exercise judgment, ask incisive questions, manage people and develop solutions to problems.

Mr. Schoenike has been a trustee of the Trust since July 2016. He was employed by various subsidiaries of U.S. Bancorp from 1990 to 2018 and has decades of experience in the securities industry. In 2000, Mr. Schoenike founded Quasar and established Quasar as a FINRA member broker-dealer dedicated to underwriting and distributing mutual funds, of which he served as President and Chief Executive Officer. Mr. Schoenike previously participated in the FINRA securities arbitration program as an industry arbitrator. Mr. Schoenike previously served as Chairman of the Board from July 2016 to December 2020.

Mr. Lyman has been a trustee of the Trust since April 2015, serves as Chairman of the Audit Committee and has been designated as an audit committee financial expert for the Trust. Mr. Lyman has 25 years of experience in the investment management industry. Since April 2023, Mr. Lyman serves as Chief Investment Officer and Senior Portfolio Manager of Mill Street Financial, LLC, part of the Ashton Thomas Private Wealth, LLC network, an investment adviser. Prior to joining Mill Street, Mr. Lyman served as Senior Portfolio Manager of Affinity Investment Advisors, LLC, an investment adviser, from 2017 to 2023; and from 2011 to 2016, he served as the Managing Director and portfolio manager of Kohala Capital Partners, an investment adviser. He also previously served as a vice president and portfolio manager of Becker Capital Management, Inc., an investment adviser. Mr. Lyman has an MBA from the Anderson School of Management at UCLA and holds the Chartered Financial Analyst designation.

Mr. Jones has been a trustee of the Trust since July 2016, has served as Lead Independent Trustee since May 2017, serves on the Audit Committee, and has been designated as an audit committee financial expert for the Trust. He has over 25 years of experience in the asset management industry as an independent director, attorney and executive, holding various roles including Chief Operating Officer, Chief Financial Officer and Chief Administrative Officer, with asset class experience ranging from municipal bonds to hedge funds. Mr. Jones currently is a trustee of two other registered investment companies and is a Managing Director of Carne Global Financial Services (US) LLC where his work includes director and risk oversight positions with investment advisers and serving as an independent director of private funds. Mr. Jones also currently serves as Managing Director of Park Agency Inc., a family office. Prior to that, he was an advisor to Wanzenburg Partners and served as Chief Operating Officer and Chief Financial Officer to Aurora Investment Management. He has a Juris Doctorate degree from Northwestern University School of Law and holds the Chartered Financial Analyst designation.

Mr. Greenberg has been a trustee of the Trust since July 2016 and serves on the Audit Committee. Mr. Greenberg has over 20 years of experience in the securities industry. He has been Chief Legal Officer and Senior Vice President of The Motley Fool Holdings, Inc. since 1996. He also served as General Counsel to Motley Fool Asset Management, LLC from 2008 to 2018 and as Manager of Motley Fool Wealth Management, LLC from 2013 to 2018. He has been a Venture Partner of and General Counsel to Motley Fool Ventures LP since 2018. Mr.

Greenberg is a Director of The Motley Fool Holdings, Inc.’s wholly-owned subsidiaries in the United Kingdom, Australia, and Canada. Mr. Greenberg also has directorship experience through his service on private company boards. He has a Master’s degree and a Juris Doctorate degree from Stanford University.

Risk Oversight. The Board performs its risk oversight function for the Trust through a combination of (1) direct oversight by the Board as a whole and the Board committee, and (2) indirect oversight through the investment advisers and other service providers, Trust officers and the Trust’s Chief Compliance Officer. The Trust is subject to a number of risks, including but not limited to investment risk, compliance risk, operational risk and reputational risk. Day-to-day risk management with respect to the series of the Trust, including the Fund, is the responsibility of the investment advisers or other service providers (depending on the nature of the risk) that carry out the Trust’s investment management and business affairs. Each of the investment advisers and the other service providers have their own independent interest in risk management and their policies and methods of risk management will depend on their functions and business models and may differ from the Trust’s and each other’s in the setting of priorities, the resources available or the effectiveness of relevant controls.

The Board provides risk oversight by receiving and reviewing on a regular basis reports from the investment advisers and other service providers, receiving and approving compliance policies and procedures, periodic meetings with the Fund’s portfolio managers to review investment policies, strategies and risks, and meeting regularly with the Trust’s Chief Compliance Officer to discuss compliance reports, findings and issues. The Board also relies on the investment advisers and other service providers, with respect to the day-to-day activities of the Trust, to create and maintain procedures and controls to minimize risk and the likelihood of adverse effects on the Trust’s business and reputation.

Board oversight of risk management is also provided by the Board’s Audit Committee. The Audit Committee meets with the Fund’s independent registered public accounting firm to ensure that the Fund’s audit scope includes risk-based considerations as to the Fund’s financial position and operations.

The Board may, at any time and in its discretion, change the manner in which it conducts risk oversight. The Board’s oversight role does not make the Board a guarantor of the Fund’s investments or activities.

Security and Other Interests. As of December 31, 2022, no Trustees of the Trust beneficially owned Shares.

Furthermore, as of December 31, 2022, neither the Independent Trustees, nor members of their immediate families, owned securities beneficially or of record, in the Advisor, the Sub-Advisor, the Distributor, or any of their affiliates. Accordingly, neither the Independent Trustees, nor members of their immediate family, have a direct or indirect interest in, have relationships with, or have been involved in any transactions with, the value of which exceeds \$120,000, the Advisor, the Sub-Advisor, the Distributor or any of their affiliates.

Compensation. For their services as Independent Trustees, the Independent Trustees receive compensation from the Trust and reimbursement for reasonable out-of-pocket expenses incurred in connection with attendance at Board or committee meetings. The Lead Independent Trustee and the Audit Committee Chair each receive additional compensation. The Trust has no pension or retirement plan.

The table below sets forth the compensation estimated to be received by the Independent Trustees for the Fund’s fiscal year ending June 30, 2024.

Independent Trustee	Aggregate Compensation from Fund	Pension or Retirement Benefits Accrued as Part of Trust Expenses	Annual Benefits Upon Retirement	Total Compensation from the Fund and the Trust ⁽¹⁾ Paid to Trustees:
Gaylord Lyman ⁽²⁾	\$7,958	\$0	\$0	\$71,625
Lawrence Greenberg	\$7,500	\$0	\$0	\$67,500
Scott Craven Jones ⁽³⁾	\$8,194	\$0	\$0	\$73,750
James R. Schoenike	\$7,500	\$0	\$0	\$67,500

(1) As of the date of this SAI, the Trust currently has nine operational portfolios and one portfolio that has been registered but has not yet commenced operations.

(2) Audit Committee Chair

(3) Lead Independent Trustee

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding Shares. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund. As of the date of this SAI, the Trustees and officers as a group owned beneficially (as the term is defined in Section 13(d) under the Securities and Exchange Act of 1934, as amended) less than 1% of the outstanding Shares. As of October 13, 2023, the following shareholders were considered to be principal shareholders of the Fund:

Name and Address	Parent Company	Jurisdiction	% Ownership	Type of Ownership
Charles Schwab & Co., Inc. Special Custody A/C FBO Customers Attn: Mutual Funds 211 Main Street San Francisco, CA 94105-1901	The Charles Schwab Corporation	DE	80.16%	Record
National Financial Services LLC For the Exclusive Benefit of Our Customers Attn: Mutual Funds Dept., 4th Floor 499 Washington Boulevard Jersey City, NJ 07310-1995	N/A	N/A	15.80%	Record

CODES OF ETHICS

The Trust, the Advisor, and the Sub-Advisor have each adopted codes of ethics pursuant to Rule 17j-1 of the 1940 Act. These codes of ethics are designed to prevent affiliated persons of the Trust, the Advisor, and the Sub-Advisor from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Fund (which may also be held by persons subject to the codes of ethics). Each code of ethics permits personnel subject to that code of ethics to invest in securities for their personal investment accounts, subject to certain limitations, including limitations related to securities that may be purchased or held by the Fund. The Distributor (as defined below) relies on the principal underwriters exception under Rule 17j-1(c)(3) from the requirement to adopt a code of ethics pursuant to Rule 17j-1 because the Distributor is not affiliated with the Trust, the Advisor, and the Sub-Advisor, and no officer, director, or general partner of the Distributor serves as an officer, director, or general partner of the Trust, the Advisor, or the Sub-Advisor.

The Trust's, the Advisor's, and the Sub-Advisor's codes of ethics may be found on the SEC's website at <http://www.sec.gov> in the exhibits to the Fund's registration statement on Form N-1A.

PROXY VOTING

The Board has adopted proxy voting procedures, and thereunder delegated the responsibility for exercising the voting rights associated with the securities purchased and/or held by the Fund to the Advisor, subject to the Board's continuing oversight. The Advisor has delegated authority to vote proxies for the portfolio securities held by the Fund to the Sub-Advisor.

Sub-Advisor

The Sub-Advisor votes proxies for the Fund in accordance with the Proxy Voting Policies and Procedures (the "Voting Policies") and Proxy Voting Guidelines ("Voting Guidelines") adopted by the Sub-Advisor. Pursuant to the Voting Policies and Voting Guidelines, the Sub-Advisor will vote all proxies as it judges in the best interests of the Fund and its shareholders. The Voting Policies and Voting Guidelines are attached to this SAI as Appendix A.

The Fund’s proxy voting record for the twelve-month period ended June 30 of each year is available by August 31 of the same year (i) without charge, upon request, by calling 844-740-8378 and (ii) on the SEC’s website at www.sec.gov.

INVESTMENT ADVISORY AND OTHER SERVICES

Investment Advisor

The Advisor, located at 85 Liberty Ship Way, Suite 201, Sausalito, CA 94965, is a California limited liability company. The Advisor is an SEC-registered investment advisor. Samuel Adams and Sarah Adams (married) are presumed to control the Advisor through their ownership interest in the Advisor.

Pursuant to an investment advisory agreement between the Trust, on behalf of the Fund, and the Advisor (the “Advisory Agreement”), the Advisor manages the assets of the Fund. The Advisory Agreement has an initial term of two years and will continue in effect from year-to-year thereafter if such continuance is approved at least annually by the Board, including a majority of the Independent Trustees or by vote of a majority of the outstanding voting securities of the Fund. The Advisory Agreement may be terminated on 60 days’ written notice without penalty: (i) by vote of the Board; (ii) by the vote of a majority of the outstanding voting securities of the Fund; or (iii) by the Advisor. The Advisory Agreement will also terminate automatically in the event of its assignment as defined in the 1940 Act.

Under the terms of the Advisory Agreement, the Advisor, with respect to the Fund, agrees to: (a) direct the investments of the Fund, subject to and in accordance with the Fund’s investment objective, policies and limitations set forth in the Prospectus and this SAI; (b) purchase and sell for the Fund securities and other investments consistent with the Fund’s objective and policies; (c) furnish office space and office facilities, equipment and personnel necessary for servicing the investments of the Fund; (d) pay the salaries of all personnel of the Advisor performing services relating to research, statistical and investment activities on behalf of the Fund; (e) make available and provide such information as the Trust and/or its administrator may reasonably request for use in the preparation of the Fund’s registration statement, reports and other documents required by any applicable federal, foreign or state statutes or regulations; and (f) make its officers and employees available to the Board and officers of the Trust for consultation and discussion regarding the management of the Fund and its investment activities. Additionally, the Advisor agrees to maintain all books and records required to be maintained by the Fund (other than those records being maintained by the Trust’s administrator, custodian or transfer agent) and preserve such records for the periods prescribed therefor. The Trust and/or the Advisor may at any time or times, upon approval by the Board and the shareholders of the Fund, enter into one or more sub-advisory agreements with a sub-advisor pursuant to which the Advisor delegates any or all of its duties as listed.

The Advisory Agreement provides that the Advisor shall not be liable for any act or omission in the course of, or connected with, rendering services under the Advisory Agreement or for any losses that may be sustained in the purchase, holding or sale of any security or the making of any investment for or on behalf of the Fund, except to the extent of a loss resulting from willful misfeasance, bad faith, negligence, or reckless disregard on its part in the performance of its obligations and duties under the agreement.

Pursuant to the Advisory Agreement, the Advisor is entitled to receive an annual investment advisory fee, paid monthly, of 0.40% of the average daily net assets of the Fund. For the fiscal years indicated below, the Advisor waived a portion of its advisory fees received from the Predecessor Fund under the expense limitation agreement with the Predecessor Fund described below:

Fiscal Year	Gross Advisory Fees Earned	Advisory Fees Waived and Fund Expenses Reimbursed
June 30, 2023	\$814,347	\$(243,414)
June 30, 2022	\$637,875	\$(266,114)
June 30, 2021	\$348,930	\$(264,650)

Pursuant to an agreement, the Advisor has agreed to waive a portion of its advisory fee or reimburse expenses to the extent the Fund's total operating expenses (excluding certain expenses such as taxes, extraordinary expenses, expenses incurred in connection with borrowings made by the Fund, interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred with any merger or reorganization, dividends or interest on short positions, acquired fund fees and expenses or extraordinary expenses such as litigation) exceed 0.45%. These fee waivers and expense reimbursements are subject to possible recoupment by the Advisor from the Fund for three years from the date such fee waiver or expense reimbursement occurred, provided that the Fund is able to make the repayment without exceeding its current expense limitations and the expense limitation in place at the time of the fee waiver or expense reimbursement. Unless the Board and the Advisor mutually agree to its earlier termination, the agreement will remain in place until December 4, 2026 with respect to the Fund. Pursuant to an agreement with the Predecessor Fund, the Advisor agreed to waive a portion of its advisory fee or reimburse expenses to the extent the Predecessor Fund's total operating expenses (excluding certain expenses such as taxes, interest, brokerage commissions and other transactional expenses, expenses incurred with any merger or reorganization, dividends or interest on any short positions, acquired fund fees and expenses, or any extraordinary expenses such as litigation) exceed 0.50%. The Advisor will not be permitted to recoup any fees waived under the expense limitation agreement with the Predecessor Fund.

Sub-Advisor

Dimensional Fund Advisors LP, located at 6300 Bee Cave Road, Building One, Austin, TX 78746, serves as the Sub-Advisor to the Fund pursuant to a sub-advisory agreement between the Advisor and the Sub-Advisor (the "Sub-Advisory Agreement"). The Sub-Advisor is organized as a Delaware limited partnership. Its general partner is Dimensional Holdings Inc. Dimensional Holdings LLC (a wholly-owned subsidiary of Dimensional Holdings Inc.) owns approximately 96% of the partnership interest of the Sub-Advisor. David G. Booth, executive chairman of the Sub-Advisor, is a principal owner and control person of Dimensional Holdings Inc. The other owners primarily include current and former Sub-Advisor employees and directors. Under the terms of the Sub-Advisory Agreement, the Sub-Advisor, subject to supervision by the Advisor and the Board, has responsibility for trading and day-to-day management of the Fund's investment portfolio in accordance with the Fund's investment objective, policies and limitations, as stated in the Fund's prospectus and SAI. The Sub-Advisor's management of the Fund is subject to the terms and conditions indicated in the Sub-Advisory Agreement.

The Sub-Advisory Agreement has an initial term of two years and will continue in effect from year-to-year thereafter if such continuance is approved at least annually by the Board, including a majority of the Independent Trustees. The Sub-Advisory Agreement may be terminated, without penalty, with respect to the Fund: (i) by the Fund at any time by the vote of a majority of the Board or by the vote of a majority of the outstanding voting securities of the Fund; (ii) by the Advisor at any time on not more than 60 days' written notice to the Sub-Advisor; or (iii) by the Sub-Advisor at any time on not more than 60 days' written notice to the Advisor. The Sub-Advisory Agreement will also terminate automatically in the event of its assignment as defined in the 1940 Act.

The Sub-Advisor is paid a sub-advisory fee by the Advisor for its services as sub-advisor to the Fund, comprising 0.15% on the first \$50 million of the average daily net assets of the Fund managed by the Sub-Advisor and 0.10% of the average daily net assets thereafter.

The Sub-Advisory Agreement provides that neither the Sub-Advisor nor its officers, directors, employees or agents shall be liable to the Advisor or the Fund for any act or omission in the course of, or connected with, rendering services under the Sub-Advisory Agreement in the absence of willful misfeasance, bad faith or gross negligence on the part of the Sub-Advisor, or reckless disregard of its obligations and duties thereunder.

PORTFOLIO MANAGERS

The Fund is managed by Samuel Adams of the Advisor and William B. Collins-Dean, Jed S. Fogdall, Allen Pu, and Joseph F. Hohn of the Sub-Advisor (each, a “Portfolio Manager” and together, the “Portfolio Managers”), who are jointly and primarily responsible for the day-to-day management of the Fund.

Other Accounts Managed. In addition to the Fund, the Portfolio Managers managed the following other accounts, as of August 31, 2023.

Portfolio Manager and Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed (in billions)	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance (in millions)
Samuel Adams				
Other Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	0	\$0	0	\$0
William B. Collins-Dean				
Other Registered Investment Companies	24	\$95.9	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	5	\$2.3	0	\$0
Jed S. Fogdall

Other Accounts	642	\$25.4	4	\$2,073
Allen Pu				
Other Registered Investment Companies	53	\$138.2	0	\$0
Other Pooled Investment Vehicles	15	\$15.2	0	\$0
Other Accounts	0	\$0	0	\$0
Joseph F. Hohn				
Other Registered Investment Companies	26	\$104.3	0	\$0
Other Pooled Investment Vehicles	7	\$1.1	0	\$0
Other Accounts	0	\$0	0	\$0

Material Conflicts of Interest.

Advisor. The Portfolio Manager may in the future manage “other accounts,” which may give rise to potential conflicts of interest in connection with the management of the Fund’s investments, on the one hand, and the investments of the other accounts, on the other hand. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio manager could favor one account over another. Another potential conflict could include the Portfolio Manager’s knowledge about the size, timing, and possible market impact of Fund trades, whereby the Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Advisor has established policies and procedures to ensure that the purchase and sale of securities among all accounts they manage are fairly and equitably allocated.

Sub-Advisor. Actual or apparent conflicts of interest may arise when a Portfolio Manager has the primary day-to-day responsibilities with respect to more than one fund and other accounts. In addition to the Fund, these accounts include registered investment companies (other than the Fund), other unregistered pooled investment vehicles, and other accounts managed for organizations and individuals (“Accounts”). An Account may have similar investment objectives to the Fund, or may purchase, sell, or hold securities that are eligible to be purchased, sold, or held by the Fund. Actual or apparent conflicts of interest include:

- *Time Management.* The management of the Fund and/or Accounts may result in a Portfolio Manager devoting unequal time and attention to the management of the Fund and/or Accounts. The Sub-Advisor seeks to manage such competing interests for the time and attention of Portfolio Managers by having Portfolio Managers focus on a particular investment discipline. Most Accounts managed by a Portfolio Manager are managed using the same investment approaches that are used in connection with the management of the Fund.
- *Investment Opportunities.* It is possible that at times identical securities will be held by the Fund and one or more Accounts. However, positions in the same security may vary and the length of time that the Fund or an Account may choose to hold its investment in the same security may likewise vary. If a Portfolio Manager identifies a limited investment opportunity that may be suitable for the Fund and one or more Accounts, the Fund may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across the Fund and other eligible Accounts. To deal with these situations, the Sub-Advisor has adopted procedures for allocating portfolio transactions across the Fund and other Accounts.
- *Broker Selection.* With respect to securities transactions for the Fund, the Sub-Advisor determines which broker to use to execute each order, consistent with its duty to seek best execution of the transaction. However, with respect to certain Accounts (such as separate accounts), the Sub-Advisor may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, the Sub-Advisor or its affiliates may place separate, non-simultaneous, transactions for the Fund and another Account that may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or an Account.
- *Performance-Based Fees.* For some Accounts, the Sub-Advisor may be compensated based on the profitability of the Account, such as by a performance-based management fee. These incentive compensation structures may create a conflict of interest for the Sub-Advisor with regard to Accounts where the Sub-Advisor is paid based on a percentage of assets because the Portfolio Manager may have an incentive to allocate securities preferentially to the Accounts where the Sub-Advisor might share in investment gains.
- *Investment in an Account.* A Portfolio Manager or his/her relatives may invest in an Account that he or she manages, and a conflict may arise where he or she may therefore have an incentive to treat the Account in which the Portfolio Manager or his/her relatives invest preferentially as compared to the Fund or other Accounts for which they have portfolio management responsibilities.

The Sub-Advisor has adopted certain compliance procedures that are reasonably designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

Compensation. Following is a description of the structure of, and method used to determine the compensation received by the Portfolio Managers from the Advisor, the Sub-Advisor, or any other source with respect to managing the Fund and any other accounts, as of the fiscal year ended June 30, 2023.

Description of Advisor Compensation for Portfolio Manager. Samuel Adams generally receives a base salary for his portfolio management services to the Fund. Currently, Mr. Adams is the Chief Executive Officer and an owner of Vert. As an owner of the Advisor, he receives compensation proportionate to his ownership interest. As such, Mr. Adams has agreed to waive compensation until the Fund generates sufficient revenue to provide a base salary.

Description of Sub-Advisor Compensation Structure for Portfolio Managers. The Portfolio Manager employed by the Sub-Advisor receive a base salary and bonus. Compensation of a Portfolio Manager is determined at the discretion of the Sub-Advisor and is based on a Portfolio Manager’s experience, responsibilities, the perception of the quality of his or her work efforts and other subjective factors. The compensation of Portfolio Managers is not directly based upon the performance of the Fund. The Sub-Advisor reviews the compensation of each Portfolio Manager annually and may make modifications in compensation as its Compensation Committee deems necessary to reflect changes in the market. Each Portfolio Manager’s compensation consists of the following:

- Base Salary. Each Portfolio Manager is paid a base salary. The Sub-Advisor considers the factors described above to determine each Portfolio Manager’s base salary.
- Semi-Annual Bonus. Each Portfolio Manager may receive a semi-annual bonus. The amount of the bonus paid to each Portfolio Manager is based upon the factors described above.

The Portfolio Managers may be awarded the right to purchase restricted shares of the stock of the Sub-Advisor, as determined from time to time by the Board of Directors of the Sub-Advisor or its delegates. Portfolio Managers also participate in benefit and retirement plans and other programs available generally to all employees. In addition, Portfolio Managers may be given the option of participating in the Sub-Advisor’s Long Term Incentive Plan. The level of participation for eligible employees may be dependent on overall level of compensation, among other considerations. Participation in this program is not based on or related to the performance of any individual strategies or any particular client accounts.

Ownership of securities. The Fund is required to show the dollar range of its Portfolio Managers’ “beneficial ownership” of Shares as of the end of the most recently completed fiscal year. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. As of the date of this SAI, the Portfolio Managers owned the following shares of the Predecessor Fund:

Portfolio Manager	Dollar Value of Portfolio Shares Beneficially Owned
Samuel Adams	\$100,001-\$500,000
William B. Collins-Dean	None
Jed S. Fogdall	None
Allen Pu	None
Joseph F. Hohn	None

THE DISTRIBUTOR

The Trust, the Advisor, and Quasar Distributors, LLC (the “Distributor”), a wholly-owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), are parties to a distribution agreement (the “Distribution Agreement”), whereby the Distributor acts as principal underwriter for the Fund and distributes Shares. Shares are continuously offered for sale by the Distributor only in Creation Units. The Distributor will not distribute Shares in amounts less than a Creation Unit and does not maintain a secondary market in Shares. The principal business address of the Distributor is 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin 53202.

Under the Distribution Agreement, the Distributor, as agent for the Trust, will review orders for the purchase and redemption of Creation Units, provided that any subscriptions and orders will not be binding on the Trust until accepted by the Trust. The Distributor is a broker-dealer registered under the 1934 Act and a member of FINRA.

The Distributor may also enter into agreements with securities dealers (“Soliciting Dealers”) who will solicit purchases of Creation Units of Shares. Such Soliciting Dealers may also be Authorized Participants (as discussed in “Procedures for Purchase of Creation Units” below) or DTC participants (as defined below).

The Distribution Agreement will continue for two years from its effective date and is renewable annually thereafter. The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of the Fund and (ii) by the vote of a majority of the Independent Trustees who have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement is terminable without penalty by the Trust on 60 days’ written notice when authorized either by majority vote of its outstanding voting Shares or by a vote of a majority of its Board (including a majority of the Independent Trustees), or by the Distributor on 60 days’ written notice, and will automatically terminate in the event of its assignment. The Distribution Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of the Distributor, or reckless disregard by it of its obligations thereunder, the Distributor shall not be liable for any action or failure to act in accordance with its duties thereunder.

THE ADMINISTRATOR, CUSTODIAN, AND TRANSFER AGENT

U.S. Bancorp Fund Services, LLC (“Fund Services”), doing business as U.S. Bank Global Fund Services, located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as the Fund’s transfer agent and administrator.

Fund Services provides certain administrative services to the Fund, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund’s independent contractors and agents; preparing for signature by an officer of the Trust all of the documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, Fund Services does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares. As compensation for its services, Fund Services receives from the Fund a combined fee for fund administration and fund accounting services based on the Fund’s current average daily net assets. Fund Services is also entitled to be reimbursed for certain out-of-pocket expenses. Fund Services also acts as fund accountant (“Fund Accountant”), transfer agent (“Transfer Agent”) and dividend disbursing agent under separate agreements with the Trust.

For the fiscal years indicated below, the Predecessor Fund paid the following administrative and accounting fees to Fund Services for its services as the Predecessor Fund’s administrator and Fund accountant:

Fiscal Year Ended	Fee Paid
June 30, 2023	\$169,148
June 30, 2022	\$176,840
June 30, 2021	\$130,799

U.S. Bank National Association (the “Custodian”), located at 1555 North River Center Drive, Suite 302, Milwaukee, Wisconsin, 53212, an affiliate of Fund Services, serves as the custodian of the Fund’s assets pursuant to a custody agreement between the Custodian and the Trust, on behalf of the Fund. The Custodian charges fees on a transactional basis plus out-of-pocket expenses. The Custodian maintains custody of securities and other assets of the Fund, delivers and receives payments for securities sold, receives and pays for securities purchased, collects income from investments and serves as the Fund’s foreign custody manager. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Fund. The Custodian and its affiliates may participate in revenue sharing arrangements with service providers of investment companies in which the Fund may invest.

LEGAL COUNSEL

Godfrey & Kahn, S.C., 833 East Michigan Street, Suite 1800, Milwaukee, Wisconsin 53202, serves as counsel to the Trust and the Independent Trustees.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd., located at 1835 Market Street, Suite 310, Philadelphia, Pennsylvania 19103, serves as the independent registered public accounting firm to the Fund providing services which include: (1) auditing the annual financial statements for the Fund; and (2) the review of the annual federal income tax returns filed on behalf of the Fund.

COMPLIANCE SERVICES

Fund Services provides compliance services to the Fund pursuant to a service agreement between Fund Services and the Trust, on behalf of the Fund. Under this service agreement, Fund Services also provides an individual to serve as Chief Compliance Officer to the Trust, subject to the approval and oversight of the Board. The Board has approved Ms. Silver as Chief Compliance Officer of the Trust.

PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES

The Trust's Board has adopted a policy regarding the disclosure of information about the Fund's security holdings. The Fund's entire portfolio holdings are publicly disseminated each day the Fund is open for business through financial reporting and news services, including publicly available internet web sites. In addition, the composition of the Deposit Securities is publicly disseminated daily prior to the opening of the Exchange via the National Securities Clearing Corporation ("NSCC").

BROKERAGE ALLOCATION AND OTHER PRACTICES

Brokerage Transactions. The Advisor and/or Sub-Advisor place or arrange for all portfolio transactions on behalf of the Fund, select broker-dealers for such transactions, allocate brokerage fees in such transactions and, where applicable, negotiate commissions and spreads on transactions.

Brokers or dealers that execute the Fund's portfolio transactions may include Authorized Participants (as discussed in "Procedures for Purchase of Creation Units" below) or their affiliates as selected by the Advisor. An Authorized Participant or its affiliates may be selected to execute the Fund's portfolio transactions in conjunction with an all-cash creation unit order or an order including "cash-in-lieu" (as described below under "Purchase and Redemption of Shares in Creation Units"). As described below under "Purchase and Redemption of Shares in Creation Units—Creation Transaction Fee" and "—Redemption Transaction Fee", the Fund may determine to not charge a variable fee on certain orders when the Advisor has determined that doing so is in the best interests of Fund shareholders, e.g., for creation orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order, even if the decision to not charge a variable fee could be viewed as benefiting the Authorized Participant or its affiliate selected to execute the Fund's portfolio transactions in connection with such orders.

Portfolio transactions will be placed with a view to receiving the best price and execution. The Sub-Advisor will seek to acquire and dispose of securities in a manner which would cause as little fluctuation in the market prices of securities being purchased or sold as possible in light of the size of the transactions being effected, and brokers will be selected with this goal in view. The Sub-Advisor monitors the performance of brokers which effect transactions for the Fund to determine the effect that the brokers' trading has on the market prices of the securities in which the Fund invests. The Sub-Advisor also checks the rate of commissions being paid by the Fund to its brokers to ascertain that the rates are competitive with those charged by other brokers for similar services.

Subject to the duty to seek to obtain best price and execution, transactions may be placed with brokers that have assisted in the sale of Shares. The Sub-Advisor, however, pursuant to policies and procedures, is prohibited from selecting brokers and dealers to effect the Fund's portfolio securities transactions based (in whole or in part) on a broker's or dealer's promotion or sale of Shares issued by the Fund or any other registered investment companies.

The Sub-Advisor believes that it needs maximum flexibility to effect trades on a best execution basis. As deemed appropriate, the Sub-Advisor places buy and sell orders for the Fund with various brokerage firms that may act as principal or agent. The Sub-Advisor may also make use of direct market access and algorithmic, program or electronic trading methods. The Sub-Advisor may extensively use electronic trading systems as such systems can provide the ability to customize the orders placed and can assist in the Sub-Advisor's execution strategies.

Transactions also may be placed with brokers who provide the Sub-Advisor with investment research, such as: reports concerning individual issuers; general economic or industry reports or research data compilations; compilations of securities prices, earnings, dividends, and similar data; computerized databases; quotation services; trade analytics; ancillary brokerage services; and services of economic or other consultants. The Sub-Advisory Agreement permits the Sub-Advisor knowingly to pay commissions on these transactions that are greater than another broker, dealer or exchange member might charge if the Sub-Advisor, in good faith, determines that the commissions paid are reasonable in relation to the research or brokerage services provided by the broker or dealer when viewed in terms of either a particular transaction or the Sub-Advisor’s overall responsibilities to the accounts under its management. Research services furnished by brokers through whom securities transactions are effected may be used by the Sub-Advisor in servicing all of its accounts and not all such services may be used by the Sub-Advisor with respect to the Fund. The Sub-Advisor does not currently use client brokerage commissions to generate credits to purchase brokerage or research services or otherwise engage in soft dollar arrangements. During the most recent fiscal year, no soft dollar payments were made by the Fund.

During the fiscal years indicated below, the Predecessor Fund paid aggregate brokerage commissions in the following amounts:

Fiscal Year Ended June 30, 2023	Fiscal Year Ended June 30, 2022	Fiscal Year Ended June 30, 2021
\$30,516	\$16,605	\$13,276

The Fund may at times invest in securities of its regular broker-dealers or the parent of its regular broker-dealers. The Predecessor Fund did not hold securities of its regular broker-dealers or direct any transactions to a broker because of research services provided during the year ended June 30, 2023.

PORTFOLIO TURNOVER RATE

The portfolio turnover rate is calculated by dividing the lesser of purchases or sales of portfolio securities by the average monthly value of the Fund’s portfolio securities. For purposes of this calculation, portfolio securities exclude all securities having a maturity when purchased of one year or less. High portfolio turnover may result in increased brokerage costs to the Fund and also adverse tax consequences to the Fund’s shareholders.

For the fiscal years ended June 30, the Predecessor Fund’s portfolio turnover rates were:

2023	2022
9%	11%

BOOK ENTRY ONLY SYSTEM

The Depository Trust Company (“DTC”) acts as securities depository for Shares. Shares are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC. Except in limited circumstances set forth below, certificates will not be issued for Shares.

DTC is a limited-purpose trust company that was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange (“NYSE”) and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers, and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “Indirect Participants”).

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants, and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to in this SAI as “Beneficial Owners”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares.

The Trust recognizes DTC or its nominee as the record owner of all Shares for all purposes. Beneficial Owners of Shares are not entitled to have Shares registered in their names and will not receive or be entitled to physical delivery of Share certificates. Each Beneficial Owner must rely on the procedures of DTC and any DTC Participant and/or Indirect Participant through which such Beneficial Owner holds its interests, to exercise any rights of a holder of Shares.

Conveyance of all notices, statements, and other communications to Beneficial Owners is effected as follows. DTC will make available to the Trust upon request and for a fee a listing of Shares held by each DTC Participant. The Trust shall obtain from each such DTC Participant the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement, or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall credit immediately DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in Shares, or for maintaining, supervising, or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may determine to discontinue providing its service with respect to the Fund at any time by giving reasonable notice to the Fund and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Fund shall take action either to find a replacement for DTC to perform its functions at a comparable cost or, if such replacement is unavailable, to issue and deliver printed certificates representing ownership of Shares, unless the Trust makes other arrangements with respect thereto satisfactory to the Exchange.

PURCHASE AND REDEMPTION OF SHARES IN CREATION UNITS

The Trust issues and redeems Shares only in Creation Units on a continuous basis through the Transfer Agent, without a sales load (but subject to transaction fees, if applicable), at their NAV per share next determined after receipt of an order, on any Business Day, in proper form pursuant to the terms of the Authorized Participant Agreement ("Participant Agreement"). The NAV of Shares is calculated each business day as of the scheduled close of regular trading on the NYSE, generally 4:00 p.m., Eastern time. The Fund will not issue fractional Creation Units. A "Business Day" is any day on which the NYSE is open for business.

Fund Deposit. The consideration for purchase of a Creation Unit of the Fund generally consists of the in-kind deposit of a designated portfolio of securities (the "Deposit Securities") per each Creation Unit and the Cash Component (defined below), computed as described below. Notwithstanding the foregoing, the Trust reserves the right to permit or require the substitution of a "cash in lieu" amount ("Deposit Cash") to be added to the Cash Component to replace any Deposit Security. When accepting purchases of Creation Units for all or a portion of Deposit Cash, the Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser.

Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the "Fund Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The "Cash Component" is an amount equal to the difference between the NAV of Shares (per Creation Unit) and the value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (*i.e.*, the NAV per Creation Unit exceeds the value of the Deposit Securities or Deposit Cash, as applicable), the Cash

Component shall be such positive amount. If the Cash Component is a negative number (*i.e.*, the NAV per Creation Unit is less than the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the value of the Deposit Securities or Deposit Cash, as applicable. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, if applicable, which shall be the sole responsibility of the Authorized Participant (as defined below).

The Fund, through NSCC, makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Fund Deposit is subject to any applicable adjustments as described below, to effect purchases of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

The identity and number of Shares of the Deposit Securities or the amount of Deposit Cash, as applicable, required for a Fund Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Advisor with a view to the investment objective of the Fund.

The Trust reserves the right to permit or require the substitution of Deposit Cash to replace any Deposit Security, which shall be added to the Cash Component, including, without limitation, in situations where the Deposit Security: (i) may not be available in sufficient quantity for delivery; (ii) may not be eligible for transfer through the systems of DTC for corporate securities and municipal securities; (iii) may not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting; (iv) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws; or (v) in certain other situations.

Procedures for Purchase of Creation Units. To be eligible to place orders with the Transfer Agent to purchase a Creation Unit of the Fund, an entity must be (i) a “Participating Party” (*i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the “Clearing Process”)), a clearing agency that is registered with the SEC; or (ii) a DTC Participant (see “Book Entry Only System”). In addition, each Participating Party or DTC Participant (each, an “Authorized Participant”) must execute a Participant Agreement that has been agreed to by the Distributor, and that has been accepted by the Transfer Agent, with respect to purchases and redemptions of Creation Units. Each Authorized Participant will agree, pursuant to the terms of a Participant Agreement, on behalf of itself or any investor on whose behalf it will act, to certain conditions, including that it will pay to the Trust, an amount of cash sufficient to pay the Cash Component together with the creation transaction fee (described below), if applicable, and any other applicable fees and taxes.

All orders to purchase Shares directly from the Fund must be placed for one or more Creation Units and in the manner and by the time set forth in the Participant Agreement and/or applicable order form. The order cut-off time for the Fund for orders to purchase Creation Units is expected to be 4:00 p.m. Eastern time, which time may be modified by the Fund from time-to-time by amendment to the Participant Agreement and/or applicable order form. The date on which an order to purchase Creation Units (or an order to redeem Creation Units, as set forth below) is received and accepted is referred to as the “Order Placement Date.”

An Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order (*e.g.*, to provide for payments of cash, when required). Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to purchase Shares directly from the Fund in Creation Units have to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

On days when the Exchange closes earlier than normal, the Fund may require orders to create Creation Units to be placed earlier in the day. In addition, if a market or markets on which the Fund's investments are primarily traded is closed, the Fund will also generally not accept orders on such day(s). Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Transfer Agent pursuant to procedures set forth in the Participant Agreement and in accordance with the applicable order form. On behalf of the Fund, the Transfer Agent will notify the Custodian of such order. The Custodian will then provide such information to the appropriate local sub-custodian(s). Those placing orders through an Authorized Participant should allow sufficient time to permit proper submission of the purchase order to the Transfer Agent by the cut-off time on such Business Day. Economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Transfer Agent or an Authorized Participant.

Fund Deposits must be delivered by an Authorized Participant through the Federal Reserve System (for cash) or through DTC (for corporate securities), through a subcustody agent (for foreign securities), and/or through such other arrangements allowed by the Trust or its agents. With respect to foreign Deposit Securities, the Custodian shall cause the subcustodian of the Fund to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, such Deposit Securities (or Deposit Cash for all or a part of such securities, as permitted or required), with any appropriate adjustments as advised by the Trust. Foreign Deposit Securities must be delivered to an account maintained at the applicable local subcustodian. The Fund Deposit transfer must be ordered by the Authorized Participant in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities or Deposit Cash, as applicable, to the account of the Fund or its agents by no later than 12:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If the Fund or its agents do not receive all of the Deposit Securities, or the required Deposit Cash in lieu thereof, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. The "Settlement Date" for the Fund is generally the second Business Day after the Order Placement Date. All questions as to the number of Deposit Securities or Deposit Cash to be delivered, as applicable, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities or cash, as applicable, will be determined by the Trust, whose determination shall be final and binding. The amount of cash represented by the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than the Settlement Date. If the Cash Component and the Deposit Securities or Deposit Cash, as applicable, are not received by the Custodian in a timely manner by the Settlement Date, the creation order may be cancelled. Upon written notice to the Transfer Agent, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current NAV of the Fund.

The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to the applicable cut-off time and the federal funds in the appropriate amount are deposited with the Custodian on the Settlement Date. If the order is not placed in proper form as required, or federal funds in the appropriate amount are not received on the Settlement Date, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. A creation request is considered to be in "proper form" if all procedures set forth in the Participant Agreement, order form and this SAI are properly followed.

Issuance of a Creation Unit. Except as provided in this SAI, Creation Units will not be issued until the transfer of good title to the Trust of the Deposit Securities or payment of Deposit Cash, as applicable, and the payment of the Cash Component have been completed. When the subcustodian has confirmed to the Custodian that the required Deposit Securities (or the cash value thereof) have been delivered to the account of the relevant subcustodian or subcustodians, the Transfer Agent and the Advisor shall be notified of such delivery, and the Trust will issue and cause the delivery of the Creation Units. The delivery of Creation Units so created generally will occur no later than the second Business Day following the day on which the purchase order is deemed received by the Transfer Agent. The Authorized Participant shall be liable to the Fund for losses, if any, resulting from unsettled orders.

Creation Units may be purchased in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) an additional amount of cash equal to a percentage of the value as set forth in the Participant Agreement, of the undelivered Deposit Securities (the

“Additional Cash Deposit”), which shall be maintained in a separate non-interest bearing collateral account. The Authorized Participant must deposit with the Custodian the Additional Cash Deposit, as applicable, by 12:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If the Fund or its agents do not receive the Additional Cash Deposit in the appropriate amount, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to the applicable percentage, as set forth in the Participant Agreement, of the daily market value of the missing Deposit Securities. The Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the value of such Deposit Securities on the day the purchase order was deemed received by the Transfer Agent plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as described below under “Creation Transaction Fee,” may be charged. The delivery of Creation Units so created generally will occur no later than the Settlement Date.

Acceptance of Orders of Creation Units. The Trust reserves the right to reject an order for Creation Units transmitted to it by the Transfer Agent with respect to the Fund including, without limitation, if (a) the order is not in proper form; (b) the Deposit Securities or Deposit Cash, as applicable, delivered by the Participant are not as disseminated through the facilities of the NSCC for that date by the Custodian; (c) the investor(s), upon obtaining Shares ordered, would own 80% or more of the currently outstanding Shares; (d) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (e) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Trust, be unlawful; or (f) in the event that circumstances outside the control of the Trust, the Custodian, the Transfer Agent and/or the Advisor make it for all practical purposes not feasible to process orders for Creation Units.

Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Distributor, the Custodian, a sub-custodian, the Transfer Agent, DTC, NSCC, Federal Reserve System, or any other participant in the creation process, and other extraordinary events. The Transfer Agent shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall either of them incur any liability for the failure to give any such notification. The Trust, the Transfer Agent, the Custodian and the Distributor shall not be liable for the rejection of any purchase order for Creation Units.

All questions as to the number of Shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust’s determination shall be final and binding.

Creation Transaction Fee. A fixed purchase (*i.e.*, creation) transaction fee, payable to the Fund’s custodian, may be imposed for the transfer and other transaction costs associated with the purchase of Creation Units (“Creation Order Costs”). The standard fixed creation transaction fee for the Fund is generally up to \$1,250, regardless of the number of Creation Units created in the transaction. The Fund may adjust the standard fixed creation transaction fee from time to time. The fixed creation fee may be waived on certain orders if the Fund’s custodian has determined to waive some or all of the Creation Order Costs associated with the order or another party, such as the Advisor, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to a maximum of 7% of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with buying the securities with cash. The Fund may determine to not charge a variable fee on certain orders when the

Advisor has determined that doing so is in the best interests of Fund shareholders, e.g., for creation orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Trust to their account or on their order.

Risks of Purchasing Creation Units. There are certain legal risks unique to investors purchasing Creation Units directly from the Fund. Because Shares may be issued on an ongoing basis, a "distribution" of Shares could be occurring at any time. Certain activities that a shareholder performs as a dealer could, depending on the circumstances, result in the shareholder being deemed a participant in the distribution in a manner that could render the shareholder a statutory underwriter and subject to the prospectus delivery and liability provisions of the Securities Act. For example, a shareholder could be deemed a statutory underwriter if it purchases Creation Units from the Fund, breaks them down into the constituent shares, and sells those shares directly to customers, or if a shareholder chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary-market demand for Shares. Whether a person is an underwriter depends upon all of the facts and circumstances pertaining to that person's activities, and the examples mentioned here should not be considered a complete description of all the activities that could cause you to be deemed an underwriter.

Dealers who are not "underwriters" but are participating in a distribution (as opposed to engaging in ordinary secondary-market transactions), and thus dealing with Shares as part of an "unsold allotment" within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act.

Redemption. Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. EXCEPT UPON LIQUIDATION OF THE FUND, THE TRUST WILL NOT REDEEM SHARES IN AMOUNTS LESS THAN CREATION UNITS. Investors must accumulate enough Shares in the secondary market to constitute a Creation Unit to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Fund, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the list of the names and Share quantities of the Fund's portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day ("Fund Securities"). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit are paid either in-kind or in cash, or combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Fund, redemption proceeds for a Creation Unit will consist of Fund Securities - as announced by the Custodian on the Business Day of the request for redemption received in proper form plus cash in an amount equal to the difference between the NAV of Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less a fixed redemption transaction fee, as applicable, as set forth below. In the event that the Fund Securities have a value greater than the NAV of Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust's discretion, an Authorized Participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.

Redemption Transaction Fee. A fixed redemption transaction fee, payable to the Fund's custodian, may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units ("Redemption Order Costs"). The standard fixed redemption transaction fee for the Fund is generally up to \$1,250, regardless of the number of Creation Units redeemed in the transaction. The Fund may adjust the redemption transaction fee from time to time. The fixed redemption fee may be waived on certain orders if the Fund's custodian has determined to

waive some or all of the Redemption Order Costs associated with the order or another party, such as the Advisor, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for cash redemptions, non-standard orders, or partial cash redemptions (when cash redemptions are available) of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with selling portfolio securities to satisfy a cash redemption. The Fund may determine to not charge a variable fee on certain orders when the Advisor has determined that doing so is in the best interests of Fund shareholders, e.g., for redemption orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Trust to their account or on their order.

Procedures for Redemption of Creation Units. Orders to redeem Creation Units must be submitted in proper form to the Transfer Agent prior to 4:00 p.m. Eastern time. A redemption request is considered to be in "proper form" if (i) an Authorized Participant has transferred or caused to be transferred to the Trust's Transfer Agent the Creation Unit(s) being redeemed through the book-entry system of DTC so as to be effective by the time as set forth in the Participant Agreement and (ii) a request in form satisfactory to the Trust is received by the Transfer Agent from the Authorized Participant on behalf of itself or another redeeming investor within the time periods specified in the Participant Agreement. If the Transfer Agent does not receive the investor's Shares through DTC's facilities by the times and pursuant to the other terms and conditions set forth in the Participant Agreement, the redemption request shall be rejected.

The Authorized Participant must transmit the request for redemption, in the form required by the Trust, to the Transfer Agent in accordance with procedures set forth in the Participant Agreement. Investors should be aware that their particular broker may not have executed a Participant Agreement, and that, therefore, requests to redeem Creation Units may have to be placed by the investor's broker through an Authorized Participant who has executed a Participant Agreement. Investors making a redemption request should be aware that such request must be in the form specified by such Authorized Participant. Investors making a request to redeem Creation Units should allow sufficient time to permit proper submission of the request by an Authorized Participant and transfer of Shares to the Trust's Transfer Agent; such investors should allow for the additional time that may be required to effect redemptions through their banks, brokers or other financial intermediaries if such intermediaries are not Authorized Participants.

Additional Redemption Procedures. In connection with taking delivery of Shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or Authorized Participant acting on behalf of such shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will be made within two business days of the trade date.

The Trust may in its discretion exercise its option to redeem such Shares in cash, and the redeeming investor will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares next determined after the redemption request is received in proper form (minus a redemption transaction fee, if applicable, and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund

Securities applicable to the redemption of Creation Units may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming investor of Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment. Further, an Authorized Participant that is not a “qualified institutional buyer” (“QIB”), as such term is defined under Rule 144A of the Securities Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A. An Authorized Participant may be required by the Trust to provide a written confirmation with respect to QIB status to receive Fund Securities.

Because the portfolio securities of the Fund may trade on other exchanges on days that the Exchange is closed or are otherwise not Business Days for the Fund, shareholders may not be able to redeem their Shares, or to purchase or sell Shares on the Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant foreign markets.

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of Shares or determination of the NAV of Shares is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

DESCRIPTION OF SHARES, VOTING RIGHTS AND LIABILITIES

Shares, when issued and paid for in accordance with the Prospectus, will be fully paid and non-assessable shares, with equal voting rights and no preferences as to conversion, exchange, dividends, redemption or any other feature.

Each Share has one vote with respect to matters upon which a shareholder vote is required, consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares have non-cumulative voting rights with respect to election of Trustees, do not have preemptive or subscription rights and are transferable.

The Fund does not hold annual meetings of shareholders. A meeting of shareholders for the purpose of voting upon the question of removal of any Trustee may be called upon the demand of shareholders owning not less than 10% of the Trust’s outstanding shares. Except when a larger quorum is required by the applicable provisions of the 1940 Act, forty percent (40%) of the shares entitled to vote on a matter constitutes a quorum at a meeting of shareholders. Generally, subject to the 1940 Act and the specific provisions of the Amended and Restated Agreement and Declaration of Trust, as amended (the “Declaration of Trust”), when a quorum is present at any meeting, a majority of the shares voted will decide any questions, except only a plurality vote is necessary to elect Trustees.

The Trust may cause, to the extent consistent with applicable law: (a) the Trust or one or more of its series to be merged into or consolidated with another trust, series of another trust or other person; (b) the shares of the Trust or any of its series to be converted into beneficial interests in another trust or series thereof; (c) the shares to be exchanged for assets or property under or pursuant to any state or federal statute to the extent permitted by law; or (d) a sale of assets of the Trust or one or more of its series. Such merger or consolidation, share conversion, share exchange or sale of assets must be authorized by a majority of the shares voted when a quorum is present, provided that in all respects not governed by statute or applicable law, the Trustees have power to prescribe the procedure necessary or appropriate to accomplish a merger or consolidation, share conversion, share exchange, or sale of assets, including the power to create one or more separate trusts to which all or any part of the assets, liabilities, profits or losses of the Trust may be transferred and to provide for the conversion of shares of the Trust or any of its series into beneficial interests in such separate business trust or trusts or series thereof.

Notwithstanding the foregoing paragraph, the Declaration of Trust provides that the Trustees may, without the vote or consent of shareholders, cause to be organized or assist in organizing a corporation or corporations under the laws of any jurisdiction, or any trust, partnership, limited liability company, association or other organization, or any series or class of any thereof (including any series, or class of any series, of the Trust), to acquire all or a portion of the Trust property (or all or a portion of the Trust property held with respect to the Fund or allocable to a particular class) or to carry on any business in which the Trust directly or indirectly has any interest (any of the foregoing, a “Successor Entity”), and to sell, convey and transfer Trust property to any such Successor Entity in exchange for the shares or securities thereof or otherwise, and to lend money to, subscribe for the shares or securities of, and enter into any contracts with any such Successor Entity in which the Trust holds or is about to acquire shares or any other interest. The Trustees may also, without the vote or consent of shareholders, cause a merger or consolidation between the Trust and any Successor Entity if and to the extent permitted by law. However, the Declaration of Trust

provides that the Trustees shall provide written notice to affected shareholders of each such transaction. Such transactions may be effected through share-for-share exchanges, transfers or sales of assets, in-kind redemptions and purchases, exchange offers, or any other method approved by the Trustees.

The Declaration of Trust provides that no shareholder shall have the right to bring or maintain any court action, proceeding or claim in the right of the Trust or the Fund or a class thereof to recover a judgment in its favor unless (a) shareholders holding at least ten percent (10%) of the outstanding shares of the Trust, the Fund or class, as applicable, join in the bringing of such court action, proceeding or claim; and (b) the bringing or maintenance of such court action, proceeding or claim is otherwise in accordance with Section 3816 of the Delaware Statutory Trust Act, subject to certain additional requirements.

The Declaration of Trust provides that by virtue of becoming a shareholder of the Fund, each shareholder will be held to have expressly assented and agreed to the terms of the Declaration of Trust, the By-Laws of the Trust and the resolutions of the Board.

The Declaration of Trust provides that the Trust will indemnify and hold harmless each Trustee and officer of the Trust and each former Trustee and officer of the Trust (each hereinafter referred to as a “Covered Person”) from and against any and all claims, demands, costs, losses, expenses, and damages whatsoever arising out of or related to such Covered Person’s performance of his or her duties as a Trustee or officer of the Trust or otherwise relating to any act, omission, or obligation of the Trust, if, as to liability to the Trust or its investors, it is finally adjudicated that the Covered Person was not liable by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the Covered Person’s offices. In the case of settlement, such indemnification will be provided if it has been determined by a court or other body approving the settlement or other disposition, or by a reasonable determination, based upon a review of readily available facts (as opposed to a full trial type inquiry), by vote of a majority of Independent Trustees of the Trust, or in a written opinion of independent counsel, that such officers or Trustees have not engaged in willful misfeasance, bad faith, gross negligence or reckless disregard of their duties. Rights to indemnification or insurance cannot be limited retroactively.

The Declaration of Trust further provides that: (i) the appointment, designation or identification of a Trustee as chairperson of the Board or a member or chairperson of a committee of the Trustees, an expert on any topic or in any area (including an audit committee financial expert), or the lead Independent Trustee, or any other special appointment, designation or identification of a Trustee, shall not impose on that individual any duty, obligation or liability that is greater than the duties, obligations and liability imposed on that person as a Trustee in the absence of the appointment, designation or identification (except with respect to duties expressly imposed pursuant to the By-Laws of the Trust, a committee charter or a Trust policy statement); (ii) no Trustee who has special skills or expertise, or is appointed, designated or identified shall be held to a higher standard of care by virtue thereof; and (iii) no appointment, designation or identification of a Trustee shall affect in any way that Trustee’s rights or entitlement to indemnification.

DETERMINATION OF NAV

NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (*i.e.*, the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fees, are accrued daily and taken into account for purposes of determining NAV. The NAV is calculated by Fund Services and determined at the scheduled close of the regular trading session on the NYSE (ordinarily 4:00 p.m., Eastern time) on each day that the NYSE is open, provided that fixed income assets may be valued as of the announced closing time for trading in fixed income instruments on any day that the Securities Industry and Financial Markets Association (“SIFMA”) announces an early closing time.

Pursuant to Rule 2a-5 under the 1940 Act, the Board has appointed the Advisor as the Fund’s valuation designee (the “Valuation Designee”) to perform all fair valuations of the Fund’s portfolio investments, subject to the Board’s oversight. As the Valuation Designee, the Advisor has established procedures for its fair valuation of the Fund’s portfolio investments. These procedures address, among other things, determining when market quotations are not readily available or reliable and the methodologies to be used for determining the fair value of investments, as well as the use and oversight of third-party pricing services for fair valuation. The Advisor’s fair value determinations will be carried out in compliance with Rule 2a-5 and based on fair value methodologies established and applied by the Advisor and periodically tested to ensure such methodologies are appropriate and accurate with respect to the

Fund's portfolio investments. The Advisor's fair value methodologies may involve obtaining inputs and prices from third-party pricing services.

In calculating the Fund's NAV per Share, the Fund's investments are generally valued using market quotations to the extent such market quotations are readily available. If market quotations are not readily available or are deemed to be unreliable by the Advisor, the Advisor will fair value such investments and use the fair value to calculate the Fund's NAV. When fair value pricing is employed, the prices of securities used by the Advisor to calculate the Fund's NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) from the price of the security quoted or published by others, or the value when trading resumes or is realized upon its sale. There may be multiple methods that can be used to value a portfolio investment when market quotations are not readily available. The value established for any portfolio investment at a point in time might differ from what would be produced using a different methodology or if it had been priced using market quotations.

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions, and Taxes."

General Policies. Dividends from net investment income, if any, are declared and paid at least annually by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Fund may make distributions on a more frequent basis to improve index tracking for the Fund or to comply with the distribution requirements of the Code to preserve the Fund's eligibility for treatment as a RIC, in all events in a manner consistent with the provisions of the 1940 Act.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

The Fund makes additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the Fund, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the Fund's eligibility for treatment as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Dividend Reinvestment Service. The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the Fund at NAV per Share. Distributions reinvested in additional Shares will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

FEDERAL INCOME TAXES

The following is only a summary of certain U.S. federal income tax considerations generally affecting the Fund and its shareholders that supplements the discussion in the Prospectus. No attempt is made to present a comprehensive explanation of the federal, state, local or foreign tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended to be a substitute for careful tax planning.

The following general discussion of certain U.S. federal income tax consequences is based on provisions of the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Shareholders are urged to consult their own tax advisers regarding the application of the provisions of tax law described in this SAI in light of the particular tax situations of the shareholders and regarding specific questions as to federal, state, local or foreign taxes.

Taxation of the Fund. The Fund has elected and intends to continue to qualify each year to be treated as a separate RIC under Section 851 of the Code. As such, the Fund generally should not be subject to federal income taxes on its net investment income and net capital gains, if any, to the extent that it timely distributes such income and capital gains to its shareholders. To qualify for treatment as a RIC, the Fund must distribute annually to its shareholders at least the sum of 90% of its net investment income (generally including the excess of net short-term capital gains over net long-term capital losses) and 90% of its net tax-exempt interest income, if any (the “Distribution Requirement”) and also must meet several additional requirements. Among these requirements are the following: (i) at least 90% of the Fund’s gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income derived with respect to its business of investing in such stock, securities or foreign currencies and net income derived from interests in qualified publicly traded partnerships (the “Qualifying Income Requirement”); and (ii) at the close of each quarter of the Fund’s taxable year, the Fund’s assets must be diversified so that (a) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, securities of other RICs, and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater in value than 5% of the value of the Fund’s total assets and to not more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (b) not more than 25% of the value of the Fund’s total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest, in the securities of (1) any one issuer (other than U.S. government securities or securities of other RICs), (2) the securities (other than securities of other RICs) of two or more issuers which the Fund controls and which are engaged in the same, similar, or related trades or businesses, or (3) the securities of one or more qualified publicly traded partnerships (the “Diversification Requirement”).

To the extent the Fund makes investments that may generate income that is not qualifying income, the Fund will seek to restrict the resulting income from such investments so that the Fund’s non-qualifying income does not exceed 10% of its gross income.

Although the Fund intends to distribute substantially all of its net investment income and may distribute its capital gains for any taxable year, the Fund will be subject to federal income taxation and excise tax to the extent any such income or gains are not distributed. The Fund is treated as a separate corporation for federal income tax purposes. The Fund therefore is considered to be a separate entity in determining its treatment under the rules for RICs described herein. The requirements (other than certain organizational requirements) for qualifying RIC status are determined at the Fund level rather than at the Trust level.

If the Fund fails to satisfy the Qualifying Income Requirement or the Diversification Requirement in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect, and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain *de minimis* failures of the Diversification Requirement where the Fund corrects the failure within a specified period of time. To be eligible for the relief provisions with respect to a failure to meet the Diversification Requirement, the Fund may be required to dispose of certain assets. If these relief provisions were not available to the Fund and it were to fail to qualify for treatment as a RIC for a taxable year, all of its taxable income would be subject to tax at the regular 21% corporate rate without any deduction for distributions to shareholders, and its distributions (including capital gains distributions) generally would be taxable to the shareholders of the Fund as ordinary income dividends, subject to the dividends received deduction for corporate shareholders and the lower tax rates on qualified dividend income received by non-corporate shareholders, subject to certain limitations. To requalify for treatment as a RIC in a subsequent taxable year, the Fund would be required to satisfy the RIC qualification requirements for that year and to distribute any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. If the Fund failed to qualify as a RIC for a period greater than two taxable years, it would generally be required to pay a Fund-level tax on certain net built in gains recognized with respect to certain of its assets upon disposition of such assets within five years of qualifying as a RIC in a subsequent year. The Board reserves the right not to maintain the qualification of the Fund for treatment as a RIC if it determines such course of action to be beneficial to shareholders. If the Fund determines that it will not qualify as a RIC, the Fund will establish procedures to reflect the anticipated tax liability in the Fund’s NAV.

The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A “qualified late year loss” generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as “post-October losses”) and certain other late-year losses.

Capital losses in excess of capital gains (“net capital losses”) are not permitted to be deducted against a RIC’s net investment income. Instead, for U.S. federal income tax purposes, potentially subject to certain limitations, the Fund may carry a net capital loss from any taxable year forward indefinitely to offset its capital gains, if any, in years following the year of the loss. To the extent subsequent capital gains are offset by such losses, they will not result in U.S. federal income tax liability to the Fund and may not be distributed as capital gains to its shareholders. Generally, the Fund may not carry forward any losses other than net capital losses. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

As of June 30, 2023, the Predecessor Fund had long term capital losses in the amount of \$3,797,883 and short term capital losses in the amount of \$2,128,134 to offset future capital gains. Capital loss carryforwards can be carried forward indefinitely and will retain their character as short-term or long-term capital loss carryforwards.

The Fund will be subject to a nondeductible 4% federal excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year an amount at least equal to 98% of its ordinary income for the calendar year plus 98.2% of its capital gain net income for the one-year period ending on October 31 of that year, subject to an increase for any shortfall in the prior year’s distribution. For this purpose, any ordinary income or capital gain net income retained by the Fund and subject to corporate income tax will be considered to have been distributed. The Fund intends to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of the excise tax, but can make no assurances that all such tax liability will be completely eliminated. The Fund may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the investment adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Fund to satisfy the requirement for qualification as a RIC.

If the Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax to the extent any such income or gains are not distributed. The Fund may designate certain amounts retained as undistributed net capital gain in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amount so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on that undistributed amount against their federal income tax liabilities and to claim refunds to the extent such credits exceed their tax liabilities, and (iii) will be entitled to increase their tax basis, for federal income tax purposes, in their Shares by an amount equal to the excess of the amount of undistributed net capital gain included in their respective income over their respective income tax credits.

Taxation of Shareholders – Distributions. The Fund intends to distribute annually to its shareholders substantially all of its investment company taxable income (computed without regard to the deduction for dividends paid), its net tax-exempt income, if any, and any net capital gain (net recognized long-term capital gains in excess of net recognized short-term capital losses, taking into account any capital loss carryforwards). The distribution of investment company taxable income (as so computed) and net realized capital gain will be taxable to Fund shareholders regardless of whether the shareholder receives these distributions in cash or reinvests them in additional Shares.

The Fund (or your broker) will report to shareholders annually the amounts of dividends paid from ordinary income, the amount of distributions of net capital gain, the portion of dividends which may qualify for the dividends received deduction for corporations, and the portion of dividends which may qualify for treatment as qualified dividend income, which, subject to certain limitations and requirements, is taxable to non-corporate shareholders at rates of up to 20%. Distributions from the Fund’s net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares.

Qualified dividend income includes, in general and, subject to certain holding period and other requirements, dividend income from taxable domestic corporations and certain foreign corporations. Subject to certain limitations, eligible foreign corporations include those incorporated in possessions of the United States, those incorporated in certain countries with comprehensive tax treaties with the United States, and other foreign corporations if the stock with respect to which the dividends are paid is readily tradable on an established securities market in the United States. Dividends received by the Fund from an ETF, an underlying fund taxable as a RIC, or a REIT may be treated as qualified dividend income generally only to the extent so reported by such ETF, underlying fund, or REIT. If 95% or more of the Fund's gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of qualified dividend income, the Fund may report all distributions of such income as qualified dividend income.

Fund dividends will not be treated as qualified dividend income if the Fund does not meet holding period and other requirements with respect to dividend paying stocks in its portfolio, and the shareholder does not meet holding period and other requirements with respect to the Shares on which the dividends were paid. Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Distributions from the Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares. Distributions may be subject to state and local taxes.

In the case of corporate shareholders, certain dividends received by the Fund from U.S. corporations (generally, dividends received by the Fund in respect of any share of stock (1) with a tax holding period of at least 46 days during the 91-day period beginning on the date that is 45 days before the date on which the stock becomes ex-dividend as to that dividend and (2) that is held in an unleveraged position) and distributed and appropriately so reported by the Fund may be eligible for the 50% dividends received deduction. Certain preferred stock must have a holding period of at least 91 days during the 181-day period beginning on the date that is 90 days before the date on which the stock becomes ex-dividend as to that dividend to be eligible. Capital gain dividends distributed to the Fund from REITs and other RICs are not eligible, and dividends distributed to the Fund from REITs are generally not eligible for the dividends received deduction. To qualify for the deduction, corporate shareholders must meet the minimum holding period requirement stated above with respect to their Shares, taking into account any holding period reductions from certain hedging or other transactions or positions that diminish their risk of loss with respect to their Shares, and, if they borrow to acquire or otherwise incur debt attributable to Shares, they may be denied a portion of the dividends received deduction with respect to those Shares.

Although dividends generally will be treated as distributed when paid, any dividend declared by the Fund in October, November or December and payable to shareholders of record in such a month that is paid during the following January will be treated for U.S. federal income tax purposes as received by shareholders on December 31 of the calendar year in which it was declared.

U.S. individuals with adjusted gross income (subject to certain adjustments) exceeding certain threshold amounts (\$250,000 if married filing jointly or if considered a "surviving spouse" for federal income tax purposes, \$125,000 if married filing separately, and \$200,000 in other cases) are subject to a 3.8% tax on all or a portion of their "net investment income," which includes taxable interest, dividends, and certain capital gains (generally including capital gain distributions and capital gains realized on the sale of Shares). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

Shareholders who have not held Shares for a full year should be aware that the Fund may report and distribute, as ordinary dividends or capital gain dividends, a percentage of income that is not equal to the percentage of the Fund's ordinary income or net capital gain, respectively, actually earned during the applicable shareholder's period of investment in the Fund. A taxable shareholder may wish to avoid investing in the Fund shortly before a dividend or other distribution, because the distribution will generally be taxable even though it may economically represent a return of a portion of the shareholder's investment.

To the extent that the Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If the Fund's distributions exceed its earnings and profits, all or a portion of the distributions made for a taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder's cost basis in the Fund and result in a higher capital gain or lower capital loss when the Shares on which the distribution was received are sold. After a shareholder's basis in the Shares has been reduced to zero, distributions in excess of earnings and profits will be treated as gain from the sale of the shareholder's Shares.

Taxation of Shareholders – Sale or Exchange of Shares. A sale or exchange of Shares may give rise to a gain or loss. For tax purposes, an exchange of your Fund Shares for shares of a different fund is the same as a sale. In general, provided that a shareholder holds Shares as capital assets, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if Shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Shares will generally be treated as short-term capital gain or loss. Any loss realized upon a taxable disposition of Shares held for six months or less will be treated as long-term capital loss, rather than short-term capital loss, to the extent of any amounts treated as distributions to the shareholder of long-term capital gain (including any amounts credited to the shareholder as undistributed capital gains). All or a portion of any loss realized upon a taxable disposition of Shares may be disallowed if substantially identical Shares are acquired (through the reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the disposition. In such a case, the basis of the newly acquired Shares will be adjusted to reflect the disallowed loss.

The cost basis of Shares acquired by purchase will generally be based on the amount paid for Shares and then may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares. Contact the broker through whom you purchased your Shares to obtain information with respect to the available cost basis reporting methods and elections for your account.

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. The ability of Authorized Participants to receive a full or partial cash redemption of Creation Units of the Fund may limit the tax efficiency of the Fund. An Authorized Participant who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units. The Internal Revenue Service ("IRS"), however, may assert that a loss realized upon an exchange of securities for Creation Units cannot currently be deducted under the rules governing "wash sales" (for a person who does not mark-to-market its portfolio) or on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will generally be treated as short-term capital gains or losses. Any loss upon a redemption of Creation Units held for six months or less may be treated as long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gain with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

The Trust, on behalf of the Fund, has the right to reject an order for Creation Units if the purchaser (or a group of purchasers) would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares and if, pursuant to Section 351 of the Code, the Fund would have a basis in the deposit securities different from the market value of such securities on the date of deposit. The Trust also has the right to require the provision of information necessary to determine beneficial Share ownership for purposes of the 80% determination. If the Fund does issue Creation Units to a purchaser (or a group of purchasers) that would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares, the purchaser (or a group of purchasers) will not recognize gain or loss upon the exchange of securities for Creation Units.

Authorized Participants purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rule applies and when a loss may be deductible.

Taxation of Fund Investments. Certain of the Fund's investments may be subject to complex provisions of the Code (including provisions relating to hedging transactions, straddles, integrated transactions, foreign currency contracts, forward foreign currency contracts, and notional principal contracts) that, among other things, may affect the Fund's ability to qualify as a RIC, may affect the character of gains and losses realized by the Fund (*e.g.*, may affect whether gains or losses are ordinary or capital), accelerate recognition of income to the Fund and defer losses. These rules could therefore affect the character, amount and timing of distributions to shareholders. These provisions also may require the Fund to mark to market certain types of positions in its portfolio (*i.e.*, treat them as if they were closed out) which may cause the Fund to recognize income without the Fund receiving cash with which to make distributions in amounts sufficient to enable the Fund to satisfy the RIC distribution requirements for avoiding income and excise taxes. The Fund intends to monitor its transactions, intends to make appropriate tax elections, and intends to make appropriate entries in its books and records to mitigate the effect of these rules and preserve the Fund's qualification for treatment as a RIC. To the extent the Fund invests in an underlying fund that is taxable as a RIC, the rules applicable to the tax treatment of complex securities will also apply to the underlying funds that also invest in such complex securities and investments.

Foreign Investments. Dividends and interest received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties between certain countries and the U.S. may reduce or eliminate such taxes.

If more than 50% of the value of the Fund's assets at the close of any taxable year consists of stock or securities of foreign corporations, which for this purpose may include obligations of foreign governmental issuers, the Fund may elect, for U.S. federal income tax purposes, to treat any foreign income or withholding taxes paid by the Fund as paid by its shareholders. For any year that the Fund is eligible for and makes such an election, the Fund would treat those taxes distributions paid to its shareholders and each shareholder of the Fund will be required to include in income an amount equal to his or her allocable share of qualified foreign income taxes paid by the Fund, and shareholders will be entitled, subject to certain holding period requirements and other limitations, to credit their portions of these amounts against their U.S. federal income tax due, if any, or to deduct their portions from their U.S. taxable income, if any. No deductions for foreign taxes paid by the Fund may be claimed, however, by non-corporate shareholders who do not itemize deductions. No deduction for such taxes will be permitted to individuals in computing their alternative minimum tax liability. Shareholders that are not subject to U.S. federal income tax, and those who invest in the Fund through tax-advantaged accounts (including those who invest through individual retirement accounts or other tax-advantaged retirement plans), generally will receive no benefit from any tax credit or deduction passed through by the Fund. The Fund does not expect to satisfy the requirements for passing through to its shareholders any share of foreign taxes paid by the Fund, with the result that shareholders will not include such taxes in their gross incomes and will not be entitled to a tax deduction or credit for such taxes on their own tax returns. Foreign taxes paid by the Fund will reduce the return from the Fund's investments.

Foreign tax credits, if any, received by the Fund as a result of an investment in another RIC (including an ETF or underlying fund which is taxable as a RIC) will not be passed through to you unless the Fund qualifies as a "qualified fund-of-funds" under the Code. If the Fund is a "qualified fund-of-funds" it will be eligible to file an election with the IRS that will enable the Fund to pass along these foreign tax credits to its shareholders. The Fund will be treated as a "qualified fund-of-funds" under the Code if at least 50% of the value of the Fund's total assets (at the close of each quarter of the Fund's taxable year) is represented by interests in other RICs.

If the Fund holds shares in a "passive foreign investment company" ("PFIC"), it may be subject to U.S. federal income tax on a portion of any "excess distribution" or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its shareholders. Additional charges in the nature of interest may be imposed on the Fund in respect of deferred taxes arising from such distributions or gains.

The Fund may be eligible to treat a PFIC as a "qualified electing fund" ("QEF") under the Code in which case, in lieu of the foregoing requirements, the Fund will be required to include in income each year a portion of the ordinary earnings and net capital gains of the qualified electing fund, even if not distributed to the Fund, and such amounts will be subject to the 90% and excise tax distribution requirements described above. To make this election, the Fund

would be required to obtain certain annual information from the PFICs in which it invests, which may be difficult or impossible to obtain. Alternatively, the Fund may make a mark-to-market election that will result in the Fund being treated as if it had sold and repurchased its PFIC stock at the end of each year. In such case, the Fund would report any gains resulting from such deemed sales as ordinary income and would deduct any losses resulting from such deemed sales as ordinary losses to the extent of previously recognized gains. The election must be made separately for each PFIC owned by the Fund and, once made, is effective for all subsequent taxable years, unless revoked with the consent of the IRS. By making the election, the Fund could potentially ameliorate the adverse tax consequences with respect to its ownership of shares in a PFIC, but in any particular year may be required to recognize income in excess of the distributions it receives from PFICs and its proceeds from dispositions of PFIC stock. The Fund may have to distribute this excess income to satisfy the 90% distribution requirement and to avoid imposition of the 4% excise tax. To distribute this income and avoid a tax at the Fund level, the Fund might be required to liquidate portfolio securities that it might otherwise have continued to hold, potentially resulting in additional taxable gain or loss. The Fund intends to make the appropriate tax elections, if possible, and take any additional steps that are necessary to mitigate the effect of these rules. Amounts included in income each year by the Fund arising from a QEF election, will be “qualifying income” under the Qualifying Income Requirement (as described above) even if not distributed to the Fund, if the Fund derives such income from its business of investing in stock, securities or currencies.

Additional Tax Information Concerning U.S. REITs. The Fund may invest in entities treated as REITs for U.S. federal income tax purposes.

Investments in REIT equity securities may require the Fund to accrue and distribute income not yet received. To generate sufficient cash to make the requisite distributions, the Fund may be required to sell securities in its portfolio (including when it is not advantageous to do so) that it otherwise would have continued to hold. The Fund’s investments in REIT equity securities may at other times result in the Fund’s receipt of cash in excess of the REIT’s earnings; if the Fund distributes these amounts, these distributions could constitute a return of capital to the Fund’s shareholders for federal income tax purposes. Dividends paid by a REIT, other than capital gain distributions, will be taxable as ordinary income up to the amount of the REIT’s current and accumulated earnings and profits. Capital gain dividends paid by a REIT to the Fund will be treated as long-term capital gains by the Fund and, in turn, may be distributed by the Fund to its shareholders as a capital gain distribution. Dividends received by the Fund from a REIT generally will not constitute qualified dividend income or qualify for the dividends received deduction. If a REIT is operated in a manner such that it fails to qualify as a REIT, an investment in the REIT would become subject to double taxation, meaning the taxable income of the REIT would be subject to federal income tax at the regular corporate rate without any deduction for dividends paid to shareholders and the dividends would be taxable to shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the REIT’s current and accumulated earnings and profits.

REITs in which the Fund invests often do not provide complete and final tax information to the Fund until after the time that the Fund issues a tax reporting statement. As a result, the Fund may at times find it necessary to reclassify the amount and character of its distributions to you after it issues your tax reporting statement. When such reclassification is necessary, you will be sent a corrected, final Form 1099-DIV to reflect the reclassified information. If you receive a corrected Form 1099-DIV, use the information on this corrected form, and not the information on the previously issued tax reporting statement, in completing your tax returns.

“Qualified REIT dividends” (*i.e.*, ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income eligible for capital gain tax rates) as eligible for a 20% deduction by non-corporate taxpayers. This deduction, if allowed in full, equates to a maximum effective tax rate of 29.6% (37% top rate applied to income after 20% deduction). Distributions by the Fund to its shareholders that are attributable to qualified REIT dividends received by the Fund and which the Fund properly reports as “section 199A dividends,” are treated as “qualified REIT dividends” in the hands of non-corporate shareholders. A section 199A dividend is treated as a qualified REIT dividend only if the shareholder receiving such dividend holds the dividend-paying RIC shares for at least 46 days of the 91-day period beginning 45 days before the shares become ex-dividend, and is not under an obligation to make related payments with respect to a position in substantially similar or related property. The Fund is permitted to report such part of its dividends as section 199A dividends as are eligible, but is not required to do so.

Backup Withholding. The Fund will be required in certain cases to withhold (as “backup withholding”) on amounts payable to any shareholder who (1) fails to provide a correct taxpayer identification number certified under penalty of perjury; (2) is subject to backup withholding by the IRS for failure to properly report all payments of interest or dividends; (3) fails to provide a certified statement that he or she is not subject to “backup withholding;” or (4) fails to provide a certified statement that he or she is a U.S. person (including a U.S. resident alien). The backup withholding rate is currently 24%. Backup withholding is not an additional tax and any amounts withheld may be credited against the shareholder’s ultimate U.S. tax liability. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax on shareholders who are neither citizens nor permanent residents of the United States.

Non-U.S. Shareholders. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Foreign shareholders (*i.e.*, nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at the rate of 30% (or a lower tax treaty rate) on distributions derived from taxable ordinary income. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of Shares generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Unless certain non-U.S. entities that hold Shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to Fund distributions payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the U.S. and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Under legislation generally known as “FATCA” (the Foreign Account Tax Compliance Act), the Fund is required to withhold 30% of certain ordinary dividends it pays to shareholders that fail to meet prescribed information reporting or certification requirements. In general, no such withholding will be required with respect to a U.S. person or non-U.S. person that timely provides the certifications required by the Fund or its agent on a valid IRS Form W-9 or applicable series of IRS Form W-8, respectively. Shareholders potentially subject to withholding include foreign financial institutions (“FFIs”), such as non-U.S. investment funds, and non-financial foreign entities (“NFFEs”). To avoid withholding under FATCA, an FFI generally must enter into an information sharing agreement with the IRS in which it agrees to report certain identifying information (including name, address, and taxpayer identification number) with respect to its U.S. account holders (which, in the case of an entity shareholder, may include its direct and indirect U.S. owners), and an NFFE generally must identify and provide other required information to the Fund or other withholding agent regarding its U.S. owners, if any. Such non-U.S. shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by regulations and other guidance. A non-U.S. shareholder resident or doing business in a country that has entered into an intergovernmental agreement with the United States to implement FATCA will be exempt from FATCA withholding provided that the shareholder and the applicable foreign government comply with the terms of the agreement. A non-U.S. entity that invests in the Fund will need to provide the Fund with documentation properly certifying the entity’s status under FATCA in order to avoid FATCA withholding.

Non-U.S. persons are generally subject to U.S. tax on a disposition of a “United States real property interest” (a “USRPI”). Gain on such a disposition is generally referred to as “FIRPTA gain.” The Code provides a look-through rule for distributions of so-called FIRPTA gain by the Fund if certain requirements are met. If the look-through rule applies, certain distributions attributable to income received by the Fund, from a REIT, may be treated as gain from

the disposition of a USRPI, causing distributions to be subject to U.S. withholding tax at rates of up to 21%, and requiring non-U.S. investors to file nonresident U.S. income tax returns. Also, gain may be subject to a 30% branch profits tax in the hands of a foreign stockholder that is treated as a corporation for federal income tax purposes. Under certain circumstances, Fund shares may qualify as USRPIs, which could result in 15% withholding on certain distributions and gross redemption proceeds paid to certain non-U.S. shareholders.

For foreign shareholders to qualify for an exemption from backup withholding, described above, the foreign shareholder must comply with special certification and filing requirements. Foreign shareholders in the Fund should consult their tax advisors in this regard.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, IRAs, salary deferral arrangements, 401(k) plans, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income (“UBTI”). Tax-exempt entities are not permitted to offset losses from one unrelated trade or business against the income or gain of another unrelated trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, the Fund generally serves to block UBTI from being realized by its tax-exempt shareholders with respect to their shares of Fund income. However, notwithstanding the foregoing, tax-exempt shareholders could realize UBTI by virtue of their investment in the Fund if, for example, (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits (“REMICs”), (ii) the Fund invests in a REIT that is a taxable mortgage pool (“TMP”) or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) Shares constitute debt-financed property in the hands of the tax-exempt shareholders within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisers. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult with their tax advisers regarding these issues.

Certain Potential Tax Reporting Requirements. Under U.S. Treasury regulations, if a shareholder recognizes a loss on disposition of Shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on IRS Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer’s treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Other Issues. In those states which have income tax laws, the tax treatment of the Fund and of Fund shareholders with respect to distributions by the Fund may differ from federal tax treatment.

FINANCIAL STATEMENTS

The Fund has adopted the financial statements of the Predecessor Fund. The financial statements of the Predecessor Fund and the Predecessor Fund’s independent registered public accounting firm’s report appearing in the Predecessor Fund’s [Annual Report](#) for the fiscal year ended June 30, 2023 are hereby incorporated by reference.

Appendix A

Proxy Voting Policies and Procedures and Proxy Voting Guidelines

Effective Date: March 29, 2023

Vert Asset Management, LLC delegates the authority to vote proxies for the portfolio securities held by the Vert Global Sustainable Real Estate Fund to Dimensional Fund Advisors LP (“Dimensional”) in accordance with the Proxy Voting Policies and Procedures and Proxy Voting Guidelines adopted by Dimensional. The following is Dimensional’s summary of its proxy voting guidelines.

General Approach to Corporate Governance and Proxy Voting

When voting proxies, Dimensional seeks to act in the best interests of the funds and accounts Dimensional manages and consistent with applicable legal and fiduciary standards. Dimensional seeks to maximize shareholder value subject to the standards of legal and regulatory regimes (applicable to the Advisor or the client), listing requirements, corporate governance and stewardship codes, and any particular investment or voting guidelines of specific funds or accounts. Dimensional will evaluate management and shareholder proposals on a case-by-case basis, in the circumstances explained below.

Dimensional expects the members of a portfolio company’s board to act in the interests of their shareholders. Each portfolio company’s board should implement policies and adopt practices that align the interests of the board and management with those of its shareholders. Since a board’s main responsibility is to oversee management and to manage and mitigate risk, it is important that board members have the experience and skills to carry out that responsibility.

This document outlines Dimensional’s global approach to key proxy voting issues and highlights particular considerations in specific markets.

GLOBAL EVALUATION FRAMEWORK

Dimensional’s Global Evaluation Framework sets out Dimensional’s general expectations for all portfolio companies. When implementing the principles contained in Dimensional’s Global Evaluation Framework in a given market, in addition to the relevant legal and regulatory requirements, Dimensional will consider local market practices. Additionally, for portfolio companies in the United States, Europe, the Middle East, Africa, Japan, and Australia, Dimensional will apply the market-specific considerations contained in the relevant subsection in these Guidelines.

Uncontested Director Elections

Dimensional may vote against individual directors, committee members, or the full board of a portfolio company, such as in the following situations:

1. There are problematic audit-related practices;

2. There are problematic compensation practices or persistent pay for performance misalignment;
3. There are problematic anti-takeover provisions;
4. There have been material failures of governance, risk oversight, or fiduciary responsibilities;
5. The board has failed to adequately respond to shareholder concerns;
6. The board has demonstrated a lack of accountability to shareholders;
7. There is an ineffective board refreshment process.

Additionally, for portfolios and accounts that consider sustainability issues in their design or have made an affirmative election or provided instruction that Dimensional should prioritize such issues as part of voting, Dimensional may vote against directors, committee members, or the full board of portfolio companies in sectors with high greenhouse emissions which have not disclosed targets to reduce their greenhouse gas emissions.

If a director is a member of multiple boards of various portfolio companies, and one of those boards has one of the issues listed in 1–7 above, Dimensional may vote against that director with respect to the board of the portfolio company with the issue as well as any other portfolio company boards.

Dimensional also considers the following when voting on directors of portfolio companies:

1. Board and committee independence;
2. Director attendance: Dimensional generally expects directors to attend at least 75% of board and committee meetings;
3. Director capacity to serve;
4. Board composition.

Board Refreshment

An effective board refreshment process for a portfolio company can include the alignment of directors' skills with business needs, assessment of individual director performance and feedback, and a search process for new directors that appropriately incorporates qualification criteria. Dimensional believes information about a portfolio company's assessment and refreshment process should be disclosed and should generally include:

- The processes and procedures by which the company identifies the key competencies that directors should possess in order to ensure the board is able to appropriately oversee the risks and opportunities associated with the company's strategy and operations;
- How the performance of individual directors and the board as a whole is assessed;
- The alignment between the skills and expertise of each board member and the key competencies identified in the board assessment process;

- Board refreshment mechanisms;
- Director recruitment policies and procedures; and
- The extent to which diversity considerations are incorporated into board assessment and refreshment practices and director recruitment policies.

In evaluating a portfolio company's refreshment process, Dimensional may consider, among other information:

- ⁿ Whether the company's board assessment process meets market best practices in terms of objectiveness, rigor, disclosure, and other criteria;
- Whether the company has any mechanisms to encourage board refreshment; and
- Whether the company has board entrenchment devices, such as a classified board or plurality vote standard.

An additional consideration that may lead Dimensional to scrutinize the effectiveness of a portfolio company's board refreshment process is a lack of gender, racial, or ethnic diversity on the board. In jurisdictions where gender, racial, or ethnic representation on a board is not mandated by law, Dimensional may consider whether a portfolio company seeks to follow market best practices as the portfolio company nominates new directors and assesses the performance of existing directors who have the diversity of backgrounds, experiences, and skill-sets needed to effectively oversee management and manage risk.

If Dimensional believes that a portfolio company's board assessment and refreshment process is not sufficiently rigorous, or if the portfolio company fails to disclose adequate information for Dimensional to assess the rigor of the process, Dimensional may vote against members of the Nominating Committee, or other relevant directors.

Bundled/Slate Director Elections

Dimensional generally opposes bundled director elections at portfolio companies; however, in markets where individual director elections are not an established practice, bundled elections are acceptable as long as the full list of candidates is disclosed in a timely manner.

Contested Director Elections

In the case of contested board elections at portfolio companies, Dimensional takes a case-by-case approach. With the goal of maximizing shareholder value, Dimensional considers the qualifications of the nominees, the likelihood that each side can accomplish their stated plans, the portfolio company's corporate governance practices, and the incumbent board's history of responsiveness to shareholders.

Board Size

Dimensional believes that portfolio company boards are responsible for determining an appropriate size of the board of directors within the confines of relevant corporate governance codes and best practice standards. However, Dimensional will generally oppose proposals to alter board structure or size in the context of a fight for control of the portfolio company or the board.

Auditors

Dimensional will typically support the ratification of auditors unless there are concerns with the auditor's independence, the accuracy of the auditor's report, the level of non-audit fees, or if lack of disclosure makes it difficult for us to assess these factors.

In addition to voting against the ratification of the auditors, Dimensional may also vote against or withhold votes from audit committee members at portfolio companies in instances of fraud, material weakness, or significant financial restatements.

Anti-Takeover Provisions

Dimensional believes that the market for corporate control, which often results in acquisitions which increase shareholder value, should be able to function without undue restrictions. Takeover defenses such as shareholder rights plans (poison pills) can lead to entrenchment of management and reduced accountability at the board level. Dimensional will generally vote against the adoption of anti-takeover provisions. Dimensional may vote against directors at portfolio companies that adopt or maintain anti-takeover provisions without shareholder approval post-initial public offering ("IPO") or adopted such structures prior to, or in connection with, an IPO. Dimensional may vote against such directors not just at the portfolio company that adopted the anti-takeover provision, but at all other portfolio company boards they serve on.

Related-Party Transactions

Related-party transactions have played a significant role in several high-profile corporate scandals and failures. Dimensional believes related-party transactions should be minimized. When such transactions are determined to be fair to the portfolio company and its shareholders in accordance with the company's policies and governing law, they should be thoroughly disclosed in public filings.

Amendments to Articles of Association/Incorporation

Dimensional expects the details of proposed amendments to articles of association or incorporation, or similar portfolio company documents, to be clearly disclosed. Dimensional will typically support such amendments that are routine in nature or are required or prompted by regulatory changes. Dimensional may vote against amendments that negatively impact shareholder rights or diminish board oversight.

Equity Plans

Dimensional supports the adoption of equity plans that align the interests of the portfolio company board, management, and company employees with those of shareholders.

Dimensional will evaluate equity plans on a case-by-case basis, taking into account the potential dilution to shareholders, the portfolio company's historical use of equity, and the particular plan features.

Executive Remuneration

Dimensional supports remuneration for executives that is clearly linked to the portfolio company's performance. Remuneration should be designed to attract, retain and appropriately motivate and serve as a means to align the interests of executives with those of shareholders.

Dimensional expects portfolio companies to structure executive compensation in a manner that does not insulate management from the consequences of failures of risk oversight and management. Dimensional typically supports clawback provisions in executive compensation plans as a way to mitigate risk of excessive risk taking by executives at portfolio companies.

Dimensional supports remuneration plan metrics that are quantifiable and clearly tied to company strategy, and the creation of shareholder value. The use of standard financial metrics, for example, metrics based on generally accepted accounting principles (“GAAP”) or international financial reporting standards, when determining executive pay is generally considered by Dimensional to be preferable. The use of non-standard metrics, including those involving large non-GAAP adjustments, result in less transparency for investors and may lead to artificially high executive pay. In evaluating a company’s executive compensation, Dimensional considers whether the company is disclosing what each metric is intended to capture, how performance is measured, what targets have been set, and performance against those targets. While environmental and social (E&S) issues may be material for shareholder value, Dimensional believes linking E&S metrics to executive pay in a quantifiable and transparent manner can present particular challenges. Dimensional will seek to focus on the rigor of E&S metrics and will seek to scrutinize payouts made under these metrics, particularly when there has been underperformance against other metrics tied to financial performance or shareholder value.

To the extent that remuneration is clearly excessive and not aligned with the portfolio company’s performance or other factors, Dimensional would not support such remuneration. Additionally, Dimensional expects portfolio companies to strive to follow local market practices with regards to the specific elements of remuneration and the overall structure of the remuneration plan.

Therefore, Dimensional reviews proposals seeking approval of a portfolio company’s executive remuneration plan closely, taking into account the quantum of pay, company performance, and the structure of the plan.

Director Remuneration

Dimensional will generally support director remuneration at portfolio companies that is reasonable in both size and composition relative to industry and market norms.

Mergers & Acquisitions (M&A)

Dimensional’s primary consideration in evaluating mergers and acquisitions is maximizing shareholder value. Given that Dimensional believes market prices reflect future expected cash flows, an important consideration is the price reaction to the announcement, and the extent to which the deal represents a premium to the pre-announcement price. Dimensional will also consider the strategic rationale, potential conflicts of interest, and the possibility of competing offers.

Dimensional may vote against deals where there are concerns with the acquisition process or where there appear to be significant conflicts of interest.

Capitalization

Dimensional will vote case-by-case on proposals related to portfolio company share issuances, taking into account the purpose for which the shares will be used, the risk to shareholders of not approving the request, and the dilution to existing shareholders.

Unequal Voting Rights

Dimensional opposes the creation of share structures that provide for unequal voting rights, including dual class stock with unequal voting rights or mechanisms such as loyalty shares that may skew economic ownership and voting rights within the same class of shares, and will generally vote against proposals to create or continue such structures. On a case-by-case basis, Dimensional may also vote against directors at portfolio companies that adopt or maintain such structures without shareholder approval post-IPO or adopted such structures prior to, or in connection with, an IPO.

Say on Climate

Dimensional will generally vote against management and shareholder proposals to introduce say on climate votes, which propose that companies' climate transition plans are put to a recurring advisory shareholder vote. Dimensional believes that strategic planning, including mitigation of climate change risks and oversight of opportunities presented by climate change is the responsibility of the portfolio company board and should not be delegated or transferred to shareholders. If a company's climate transition plan is put to a shareholder vote then Dimensional will generally vote against the plan, regardless of the level of detail contained in the plan, to indicate our opposition to the delegation of oversight implied by such votes. If Dimensional observes that a portfolio company board is failing to adequately guard shareholder value through strategic planning, Dimensional may vote against directors.

Shareholder Proposals

Dimensional's goal when voting on shareholder proposals to portfolio companies is to support those proposals that protect or enhance shareholder value through improved board accountability, improved policies and procedures, or improved disclosure.

When evaluating shareholder proposals, Dimensional will consider whether the proposal addresses a material issue to the portfolio company, the portfolio company's current handling of the issue (both on an absolute basis and relative to market practices), the company's compliance with regulatory requirements, and the potential cost to the company of implementing the proposal. Dimensional may apply additional considerations when voting on sustainability or social shareholder proposals on behalf of portfolios and accounts that incorporate sustainability or social considerations in their portfolio design or have made an affirmative election or provided instruction that Dimensional should prioritize sustainability or social issues as part of voting.

Virtual Meetings

Dimensional does not oppose the use of virtual-only meetings if shareholders are provided with the same rights and opportunities as available during a physical meeting, including: ¹¹ The ability to see and hear company representatives;

* The ability to ask questions of company representatives; and

* The ability to see or hear questions submitted to company representatives by other shareholders, including those questions not answered by company representatives.

Disclosure of Vote Results

Dimensional expects detailed disclosure of voting results. In cases where vote results have not been disclosed within a reasonable time frame, Dimensional may vote against individual directors, committee members, or the full board of a portfolio company.

VOTING GUIDELINES FOR ENVIRONMENTAL AND SOCIAL ISSUES

Dimensional believes that portfolio company boards are responsible for addressing material environmental and social (E&S) issues within their duties. If a portfolio company is unresponsive to material E&S risks which may have economic ramifications for shareholders, Dimensional may vote against directors individually, committee members, or the entire board. Dimensional may communicate with portfolio companies to better understand the alignment of the interests of boards and management with those of shareholders on these topics.

Dimensional evaluates shareholder proposals on environmental or social issues consistent with its general approach to shareholder proposals, paying particular attention to the portfolio company's current handling of the issue, current disclosures, the financial materiality of the issue, market practices, and regulatory requirements. Dimensional may vote for proposals requesting disclosure of specific environmental and social data, such as information about board oversight, risk management policies and procedures, or performance against a specific metric, if Dimensional believes that the portfolio company's current disclosure is inadequate to allow shareholders to effectively assess the portfolio company's handling of a material issue.

EVALUATING DISCLOSURE OF MATERIAL ENVIRONMENTAL OR SOCIAL RISKS

Dimensional generally believes that information about the oversight and mitigation of material environmental or social risks should be disclosed by portfolio companies. Dimensional generally expects the disclosure regarding oversight and mitigation to include:

- A description of material risks.
- A description of the process for identifying and prioritizing such risks and how frequently it occurs.
- The policies and procedures governing the handling of each material risk.
- A description of the management-level roles/groups involved in oversight and mitigation of each material risk.
- A description of the metrics used to assess the effectiveness of mitigating each material risk, and the frequency at which performance against these metrics is assessed.
- A description of how the board is informed of material risks and the progress against relevant metrics.

In certain instances where Dimensional determines that disclosure by a portfolio company is insufficient for a shareholder to be able to adequately assess the relevant risks facing a portfolio company, Dimensional may, on a case-by-case basis, vote against individual directors, committee members, or the entire board, or may vote in favor of related shareholder proposals consistent with Dimensional's general approach to such proposals.

Political and Lobbying Activities

Dimensional expects boards of portfolio companies to exercise oversight of political and lobbying-related expenditures and ensure that such spending is in line with shareholder interests.

In evaluating a portfolio company's policies related to political and lobbying expenditure, Dimensional expects the following practices:

- The board to adopt policies and procedures to oversee political and lobbying expenditures;
- * The details of the board oversight, including the policies and procedures governing such expenditures, to be disclosed publicly; and
- * That board oversight of political and lobbying activities, such as spending, should include ensuring that the portfolio company's publicly stated positions are in alignment with its related activities and spending.

Human Capital Management

Dimensional expects boards of portfolio companies to exercise oversight of human capital management issues. Dimensional expects portfolio companies to disclose sufficient information for shareholders to understand the policies, procedures, and personnel a company has in place to address issues related to human capital management. This disclosure should include the company's human capital management goals in key areas, such as compensation, employee health and wellness, employee training and development, and workforce composition, as well as the metrics by which the company assesses performance against these goals.

Climate Change

Dimensional expects boards of portfolio companies to exercise oversight of climate change risks that may have a material impact on the company. Climate change risks may include physical risks of climate change from changing weather patterns and/ or transitional risks of climate change from changes in regulation or consumer preferences. Dimensional expects portfolio companies to disclose information on their handling of these risks, to the extent those risks may have a material impact on the company. Disclosure should include:

- The specific risks identified.
- The potential impact these risks could have on the company's business, operations, or strategy.
- Whether the risks are overseen by a specific committee or the full board.
- The frequency with which the board or responsible board committee receives updates on the risks

and the types of information reviewed.

- The management-level roles/groups responsible for managing these risks.
- The metrics used to assess the handling of these risks, how they are calculated, and the reason for their selection, particularly when the metrics recommended by a recognized third-party framework, such as Task Force for Climate-related Financial Disclosures (TCFD) or Sustainability Accounting Standards Board (SASB), are not being used.
- Targets used by the company to manage climate-related risks and performance against those targets.

Human Rights

Dimensional expects portfolio company boards to exercise oversight of human rights issues that could pose a material risk to the business, including forced labor, child labor, privacy, freedom of expression, and land and water rights. Dimensional expects portfolio companies to disclose information on their handling of these risks, to the extent those risks may have a material impact on the company. Disclosure should include:

- The specific risks identified.
- The potential impact these risks could have on the company's business, operations, or strategy.
- Whether the risks are overseen by a specific committee or the full board.
- The frequency with which the board or responsible board committee receives updates on the risks and the types of information reviewed.
- Details on how the company monitors human rights throughout the organization and supply chain, including the scope and frequency of audits and how instances of non-compliance are resolved.
- The policies governing human rights throughout the organization and supply chain and the extent to which the policy aligns with recognized global frameworks such as the UN's Guiding Principles on Human Rights and the OECD's Guidelines for Multinational Enterprises.
- Details of violations of the policy and corrective action taken.

Cybersecurity

Dimensional expects portfolio company boards to exercise oversight of cybersecurity issues that could pose a material risk to the business. Dimensional expects portfolio companies to disclose information on their handling of these risks, to the extent those risks may have a material impact on the company. Disclosure should include: ▫ Policies and procedures to manage cybersecurity risk and identify cybersecurity incidents. ▫ The role of management in implementing cybersecurity policies and procedures. ▫ The role of the board in overseeing cybersecurity risk and the process by which the board is informed of incidents. ▫ Material cybersecurity incidents and remedial actions taken.

Evaluation Framework for U.S. Listed Companies

DIRECTOR ELECTIONS

Uncontested Director Elections

Shareholders elect the board of a portfolio company to represent their interests and oversee management and expect boards to adopt policies and practices that align the interests of the board and management with those of shareholders and limit the potential for conflicts of interest.

One of the most important measures aimed at ensuring that portfolio company shareholders' interests are represented is an independent board of directors, made up of individuals with the diversity of backgrounds, experiences, and skill-sets needed to effectively oversee management and manage risk. Dimensional expects portfolio company boards to be majority independent and key committees to be fully independent.

Dimensional believes shareholders should have a say in who represents their interests and portfolio companies should be responsive to shareholder concerns. Dimensional may vote against or withhold votes from individual directors, committee members, or the full board, and may also vote against such directors when they serve on other portfolio company boards, in the following situations:

- ⁿ The continued service of directors who failed to receive the support of a majority of shareholders (regardless of whether the company uses a majority or plurality vote standard).
- ⁿ Failure to adequately respond to majority-supported shareholder proposals.

Contested Director Elections

In the case of contested board elections at portfolio companies, Dimensional takes a case-by-case approach. With the goal of maximizing shareholder value, Dimensional considers the qualifications of the nominees, the likelihood that each side can accomplish their stated plans, the portfolio company's corporate governance practices, the incumbent board's history of responsiveness to shareholders, and the market's reaction to the contest.

BOARD STRUCTURE AND COMPOSITION

Age and Term Limits

Dimensional believes it is the responsibility of a portfolio company's nominating committee to ensure that the company's board of directors is composed of individuals with the skills needed to effectively oversee management and will generally oppose proposals seeking to impose age or term limits for directors.

That said, portfolio companies should clearly disclose their director evaluation and board refreshment policies in their proxy. Lack of healthy turnover on the board of a portfolio company or lack of observable diversity on a portfolio company board may lead Dimensional to scrutinize the rigor of a portfolio company's board refreshment process.

CEO/Chair

Dimensional believes that the portfolio company boards are responsible for determining whether the separation of roles is appropriate and adequately protects the interests of shareholders.

At portfolio companies with a combined CEO/Chair, Dimensional expects the board to appoint a lead independent director with specific responsibilities, including the setting of meeting agendas, to seek to ensure the board is able to act independently.

Recent environmental, social, and governance controversies resulting from inadequate board oversight may be taken into account when voting on shareholder proposals seeking the separation of the roles of CEO and Chair at a portfolio company.

GOVERNANCE PRACTICES

Classified Boards

Dimensional believes director votes are an important mechanism to increase board accountability to shareholders. Dimensional therefore advocates for boards at portfolio companies to give shareholders the right to vote on the entire slate of directors on an annual basis.

Dimensional will generally support proposals to declassify existing boards at portfolio companies and will generally oppose efforts by portfolio companies to adopt classified board structures, in which only part of the board is elected each year.

Dimensional will generally vote against or withhold votes from incumbent directors at portfolio companies that adopt a classified board without shareholder approval. Dimensional may also vote against or withhold votes from directors at portfolio companies that adopt classified boards prior to or in connection with an IPO, unless accompanied by a reasonable sunset provision.

Dual Classes of Stock

Dual class share structures are generally seen as detrimental to shareholder rights, as they are accompanied by unequal voting rights. Dimensional believes in the principle of one share, one vote.

Dimensional opposes the creation of dual-class share structures with unequal voting rights at portfolio companies and will generally vote against proposals to create or continue dual-class capital structures.

Dimensional will generally vote against or withhold votes from directors at portfolio companies that adopt a dual-class structure without shareholder approval after the company's IPO. Dimensional will generally vote against or withhold votes from directors for implementation of a dual-class structure prior to or in connection with an IPO, unless accompanied by a reasonable sunset provision.

Supermajority Vote Requirements

Dimensional believes that the affirmative vote of a majority of shareholders of a portfolio company should be sufficient to approve items such as bylaw amendments and mergers. Dimensional will generally vote against proposals seeking to implement a supermajority vote requirement and for shareholder proposals seeking the adoption of a majority vote standard.

Dimensional will generally vote against or withhold votes from incumbent directors at portfolio companies that adopt a supermajority vote requirement without shareholder approval. Dimensional may also vote against or withhold votes from directors at portfolio companies that adopt supermajority vote requirements prior to or in connection with an IPO, unless accompanied by a reasonable sunset provision.

Shareholder Rights Plans (Poison Pills)

Dimensional generally opposes poison pills. As a result, Dimensional may vote against the adoption of a pill and all directors at a portfolio company that put a pill in place without first obtaining shareholder approval. Votes against (or withheld votes from) directors may extend beyond the portfolio company that adopted the pill, to all boards the directors serve on. In considering a poison pill for approval, Dimensional may take into account the existence of 'qualified offer' and other shareholder-friendly provisions.

For pills designed to protect net operating losses, Dimensional may take into consideration a variety of factors, including but not limited to the size of the available operating losses and the likelihood that they will be utilized to offset gains.

Cumulative Voting

Under cumulative voting, each shareholder is entitled to the number of his or her shares multiplied by the number of directors to be elected. Shareholders have the flexibility to allocate their votes among directors in the proportion they see fit, including casting all their votes for one director. This is particularly impactful in the election of dissident candidates to the board in the event of a proxy contest.

Dimensional will typically support proposals that provide for cumulative voting and against proposals to eliminate cumulative voting unless the portfolio company has demonstrated that there are adequate safeguards in place, such as proxy access and majority voting.

Majority Voting

For the election of directors, portfolio companies may adopt either a majority or plurality vote standard. In a plurality vote standard, the directors with the most votes are elected. If the number of directors up for election is equal to the number of board seats, each director only needs to receive one vote in order to be elected.

In a majority vote standard, in order to be elected, a director must receive the support of a majority of shares voted or present at the meeting.

Dimensional supports a majority (rather than plurality) voting standard for uncontested director elections at portfolio companies. The majority vote standard should be accompanied by a director resignation policy to address failed elections.

To account for contested director elections, portfolio companies with a majority vote standard should include a carve-out for plurality voting in situations where there are more nominees than seats.

Right to Call Meetings and Act by Written Consent

Dimensional will generally support the right of shareholders to call special meetings of a portfolio company board (if they own 25% of shares outstanding) and take action by written consent.

Proxy Access

Dimensional will typically support management and shareholder proposals for proxy access that allow a shareholder (or group of shareholders) holding three percent of voting power for three years to nominate up

to 25 percent of a portfolio company board. Dimensional will typically vote against proposals that are more restrictive than these guidelines.

Amend Bylaws/Charters

Dimensional believes that shareholders should have the right to amend a portfolio company's bylaws. Dimensional will generally vote against or withhold votes from incumbent directors at portfolio companies that place substantial restrictions on shareholders' ability to amend bylaws through excessive ownership requirements for submitting proposals or restrictions on the types of issues that can be amended.

Exclusive Forum

Dimensional is generally supportive of management proposals at portfolio companies to adopt an exclusive forum for shareholder litigation.

Indemnification and Exculpation of Directors and Officers

Dimensional intends to evaluate proposals seeking to enact or expand indemnification or exculpation provisions on a case-by-case basis considering board rationale and specific provisions being proposed.

Advance Notice Provisions

Portfolio company bylaw amendments known as "advance notice provisions" set out the steps shareholders must follow when submitting an item for inclusion on the agenda of a shareholder meeting. These provisions may serve as an entrenchment device that can result in reduced accountability at the board level in cases where they impose onerous requirements on shareholders wishing to submit a nominee for the board of directors. When evaluating advanced notice provisions, whether for the submission of a shareholder candidate or the submission of other permissible proposals, Dimensional generally does not support provisions that: ⁿ Require shareholder-nominated candidates to disclose information that is not required for new board-nominated candidates. ⁿ Impose unduly burdensome disclosure requirements on shareholder proponents. ⁿ Significantly limit the time period shareholders have to submit proposals or nominees.

Dimensional may vote against or withhold votes from directors who adopt such provisions without shareholder approval.

EXECUTIVE AND DIRECTOR COMPENSATION

Stock-Based Compensation Plans

Dimensional supports the adoption of equity plans that align the interests of portfolio company board, management, and company employees with those of shareholders.

Dimensional will evaluate equity compensation plans on a case-by-case basis, taking into account the potential dilution to shareholders, the portfolio company's historical use of equity, and the particular plan features.

Dimensional will typically vote against plans that have features that have a negative impact on shareholders of portfolio companies. Such features include single-trigger or discretionary vesting, an overly broad definition of change in control, a lack of minimum vesting periods for grants, evergreen provisions, and the ability to reprice shares without shareholder approval.

Dimensional may also vote against equity plans if problematic equity grant practices have contributed to a pay for performance misalignment at the portfolio company.

Employee Stock Purchase Plans

Dimensional will generally support qualified employee stock purchase plans (as defined by Section 423 of the Internal Revenue Code), provided that the purchase price is no less than 85 percent of market value, the number of shares reserved for the plan is no more than ten percent of outstanding shares, and the offering period is no more than 27 months.

Advisory Votes on Executive Compensation (Say on Pay)

Dimensional supports reasonable compensation for executives that is clearly linked to the portfolio company's performance. Compensation should serve as a means to align the interests of executives with those of shareholders. To the extent that compensation is excessive, it represents a transfer to management of shareholder wealth. Therefore, Dimensional reviews proposals seeking approval of a portfolio company's executive compensation plan closely, taking into account the quantum of pay, company performance, and the structure of the plan.

Certain practices, such as:

- multi-year guaranteed bonuses
- excessive severance agreements (particularly those that vest without involuntary job loss or diminution of duties or those with excise-tax gross-ups)
- single, or the same, metrics used for both short-term and long-term executive compensation plans may encourage excessive risk-taking by executives at portfolio companies and are generally opposed by Dimensional.

At portfolio companies that have a history of problematic pay practices or excessive compensation, Dimensional will consider the company's responsiveness to shareholders' concerns and may vote against or withhold votes from members of the compensation committee if these concerns have not been addressed.

Frequency of Say on Pay

Executive compensation in the United States is typically composed of three parts: 1) base salary; 2) cash bonuses based on annual performance (short-term incentive awards); 3) and equity awards based on performance over a multi-year period (longterm incentive awards).

Dimensional supports triennial say on pay because it allows for a longer-term assessment of whether compensation was adequately linked to portfolio company performance. This is particularly important in situations where a company makes significant changes to their long-term incentive awards, as the effectiveness of such changes in aligning pay and performance cannot be determined in a single year.

If there are serious concerns about a portfolio company's compensation plan in a year where the plan is not on the ballot, Dimensional may vote against or withhold votes from members of the Compensation Committee.

Executive Severance Agreements (Golden Parachutes)

Dimensional analyzes golden parachute proposals on a case-by-case basis.

Dimensional expects payments to be reasonable on both an absolute basis and relative to the value of the transaction. Dimensional will typically vote against agreements with cash severance of more than 3x salary and bonus.

Dimensional expects vesting of equity to be contingent on both a change in control and a subsequent involuntary termination of the employee (“double-trigger change in control”).

CORPORATE ACTIONS

Reincorporation

Dimensional will evaluate reincorporation proposals on a case-by-case basis.

Dimensional may vote against reincorporations if the move would result in a substantial diminution of shareholder rights at the portfolio company.

CAPITALIZATION

Increase Authorized Shares

Dimensional will vote case-by-case on proposals seeking to increase common or preferred stock of a portfolio company, taking into account the purpose for which the shares will be used and the risk to shareholders of not approving the request.

Dimensional will typically vote against requests for common or preferred stock issuances that are excessively dilutive relative to common market practice.

Dimensional will typically vote against proposals at portfolio companies with multiple share classes to increase the number of shares of the class with superior voting rights.

Blank Check Preferred Stock

Blank check preferred stock is stock that can be issued at the discretion of the board, with the voting, conversion, distribution, and other rights determined by the board at the time of issue. Therefore, blank check preferred stock can potentially serve as means to entrench management and prevent takeovers at portfolio companies.

To mitigate concerns regarding what Dimensional believes is the inappropriate use of blank check preferred stock, Dimensional expects portfolio companies seeking approval for blank preferred stock to clearly state that the shares will not be used for anti-takeover purposes.

Share Repurchases

Dimensional will generally support open-market share repurchase plans that allow all shareholders to participate on equal terms. Portfolio companies that use metrics such as earnings per share (EPS) in their executive compensation plans should ensure that the impact of such repurchases are taken into account when determining payouts.

SHAREHOLDER PROPOSALS

Dimensional's goal when voting on shareholder proposals is to support those proposals that protect or enhance shareholder value through improved board accountability, improved policies and procedures, or improved disclosure.

When evaluating shareholder proposals, Dimensional will consider whether the proposal addresses a material issue to the portfolio company, the portfolio company's current handling of the issue (both on an absolute basis and relative to market practices), the company's compliance with regulatory requirements, and the potential cost to the company of implementing the proposal.

In instances where a shareholder proposal is excluded from the meeting agenda but the SEC has declined to state a view on whether such proposal can be excluded, Dimensional expects the portfolio company to provide shareholders with substantive disclosure concerning this exclusion. If substantive disclosure is lacking, Dimensional may vote against or withhold votes from certain directors on a case-by-case basis.

Evaluation Framework for Europe, the Middle East, and Africa (EMEA) Listed Companies

CONTINENTAL EUROPE

Director Election Guidelines

- * Portfolio company boards should be majority independent (excluding shareholder or employee representatives as provided by law); however, lower levels of board independence may be acceptable in controlled companies and in those markets where local best practice indicates that at least one-third of the board be independent.
- * A majority of audit and remuneration committee members (excluding shareholder or employee representatives as provided by law) should be independent; the committees overall should be at least one-third independent. ⁿ Executives should generally not serve on audit and remuneration committees. ⁿ The CEO and board chair roles should generally be separate.

Remuneration Guidelines

Dimensional expects annual remuneration reports published by portfolio companies pursuant to the Shareholder Rights Directive II to disclose, at a minimum:

The amount paid to executives;

Alignment between pay and performance;

- * The targets used for variable incentive plans and the ex-post levels achieved; and
- * The rationale for any discretion applied.

Other Market Specific Guidelines for Continental Europe

In Austria, Germany, and the Netherlands, Dimensional will generally vote against the appointment of a former CEO as chairman of the board of directors or supervisory board of a portfolio company.

UNITED KINGDOM & IRELAND

Dimensional expects portfolio companies to follow the requirements of the UK Corporate Governance Code with regards to board and committee composition. When evaluating portfolio company boards

Dimensional will also consider the recommendations of the FTSE Women Leaders and Parker Reviews with regards to female and minority representation on the board.

Dimensional also expects companies to align their remuneration with the requirements of the UK Corporate Governance Code and to consider best practices such as those set forth in the Investment Association Principles of Remuneration.

SOUTH AFRICA

Dimensional expects portfolio companies to follow the recommendations of the King Report On Corporate Governance (King Code IV) with regards to board and committee composition.

TURKEY

Dimensional expects the board of directors of a portfolio company to be at least one-third independent; at minimum two directors should be independent.

Dimensional expects the board of a portfolio company to establish an independent audit committee.

Dimensional expects the board of a portfolio company to establish a board committee with responsibility for compensation and nominating matters. This committee should be chaired by an independent director.

Framework for Evaluating Australia-Listed Companies

Uncontested Director Elections

Shareholders elect the board of a portfolio company to represent their interests and oversee management and expect portfolio company boards to adopt policies and practices that align the interests of the board and management with those of shareholders and limit the potential for conflicts of interest.

One of the most important measures aimed at ensuring that portfolio company shareholders' interests are represented is an independent board of directors, made up of individuals with the diversity of backgrounds, experiences, and skill-sets needed to effectively oversee management and manage risk. Dimensional expects portfolio company boards to be majority independent.

Dimensional believes that key audit and remuneration committees should be composed of independent directors. Dimensional will generally vote against executive directors of the portfolio company who serve on the audit committee or who serve on the remuneration committee if the remuneration committee is not majority independent.

Dimensional will consider the ASX Corporate Governance Council Principles and Recommendations (the "ASX Principles and Recommendations") with regards to female representation on the board when voting on directors.

CEO/Chair

Dimensional expects portfolio companies to follow the ASX Corporate Governance Council Principles and Recommendations and generally separate the CEO and board chair roles, with the board chair being an independent director.

Auditors

Australian law does not require the annual ratification of auditors; therefore, concerns with a portfolio company's audit practices will be reflected in votes against members of the audit committee.

Dimensional may vote against audit committee members at a portfolio company if there are concerns with the auditor's independence, the accuracy of the auditor's report, the level of non-audit fees, or if lack of disclosure makes it difficult to assess these factors.

Dimensional may also vote against audit committee members in instances of fraud or material failures in oversight of audit functions.

Share Issuances

Dimensional will evaluate requests for share issuances on a case-by-case basis, taking into account factors such as the impact on current shareholders and the rationale for the request.

When voting on approval of prior share distributions, Dimensional will generally support prior issuances that conform to the dilution guidelines set out in ASX Listing Rule 7.1.

Share Repurchase

Dimensional will evaluate requests for share repurchases on a case-by-case basis, taking into account factors such as the impact on current shareholders, the rationale for the request, and the portfolio company's history of repurchases. Dimensional expects repurchases to be made in arms-length transactions using independent third parties.

Dimensional may vote against portfolio company plans that do not include limitations on the company's ability to use the plan to repurchase shares from third parties at a premium and limitations on the use of share purchases as an anti-takeover device.

Constitution Amendments

Dimensional will evaluate requests for amendments to a portfolio company's constitution on a case-by-case basis. The primary consideration will be the impact on the rights of shareholders.

Non-Executive Director Compensation

Dimensional will support non-executive director remuneration at portfolio companies that is reasonable in both size and composition relative to industry and market norms.

Dimensional will generally vote against components of non-executive director remuneration that are likely to impair a director's independence, such as options or performance-based remuneration.

Equity Plans

Dimensional supports the adoption of equity plans that align the interests of the portfolio company board, management, and company employees with those of shareholders.

Companies should clearly disclose components of the plan, including vesting periods and performance hurdles.

Dimensional may vote against plans that are exceedingly dilutive to existing shareholders. Plans that permit retesting or repricing will generally be viewed unfavorably.

Framework for Evaluating Japan-Listed Securities

Uncontested Director Elections

Shareholders elect the board of a portfolio company to represent their interests and oversee management and expect portfolio company boards to adopt policies and practices that align the interests of the board and management with those of shareholders and limit the potential for conflicts of interest.

One of the most important measures aimed at ensuring that portfolio company shareholders' interests are represented is an independent board of directors, made up of individuals with the diversity of backgrounds, experiences, and skill-sets needed to effectively oversee management and manage risk. With respect to gender diversity, Dimensional may consider local market practice, including requirements under the Japan Corporate Governance Code, and may vote against directors if the board does not meet established market norms.

At portfolio companies with a three-committee structure, Dimensional expects at least one-third of the board to be outsiders. Ideally, the board should be majority independent. At portfolio companies with a three-committee structure that have a controlling shareholder, at least two directors and at least one-third of the board should be independent outsiders.

At portfolio companies with an audit committee structure, Dimensional expects at least one-third of the board to be outsiders. Ideally, the audit committee should be entirely independent; at minimum, any outside directors who serve on the committee should be independent. At portfolio companies with an audit committee structure that have a controlling shareholder, at least two directors and at least one-third of the board should be independent outsiders.

At portfolio companies with a statutory auditor structure, Dimensional expects at least two directors and at least one-third of the board to be outsiders. At portfolio companies with a statutory auditor structure that have a controlling shareholder, at least two directors and at least one-third of the board should be independent outsiders.

Statutory Auditors

Statutory auditors are responsible for effectively overseeing management and ensuring that decisions made are in the best interest of shareholders. Dimensional may vote against statutory auditors who are remiss in their responsibilities.

When voting on outside statutory auditors, Dimensional expects nominees to be independent and to have the capacity to fulfill the requirements of their role as evidenced by attendance at meetings of the board of directors or board of statutory auditors.

Director and Statutory Auditor Compensation

Dimensional will support compensation for portfolio company directors and statutory auditors that is reasonable in both size and composition relative to industry and market norms.

When requesting an increase to the level of director fees, Dimensional expects portfolio companies to provide a specific reason for the increase. Dimensional will generally support an increase of director fees if it is in conjunction with the introduction of performance-based compensation, or where the ceiling for performance-based compensation is being increased. Dimensional will generally not support an increase in director fees if there is evidence that the directors have been remiss in effectively overseeing management or ensuring that decisions made are in the best interest of shareholders.

Dimensional will typically support an increase to the statutory auditor compensation ceiling unless there is evidence that the statutory auditors have been remiss in effectively overseeing management or ensuring that decisions made are in the best interest of shareholders.

Dimensional will generally support the granting of annual bonuses to portfolio company directors and statutory auditors unless there is evidence the board or the statutory auditors have been remiss in effectively overseeing management or ensuring that decisions made are in the best interest of shareholders.

Dimensional generally supports the granting of retirement benefits to portfolio company insiders, so long as the individual payments, and aggregate amount of such payments, is disclosed.

Dimensional will generally vote against the granting of retirement bonuses if there is evidence the portfolio company board or statutory auditors have been remiss in effectively overseeing management or ensuring that decisions made are in the best interest of shareholders.

Equity Based Compensation

Dimensional supports the adoption of equity plans that align the interests of the portfolio company board, management, and company employees with those of shareholders.

Dimensional will typically support stock option plans to portfolio company executives and employees if total dilution from the proposed plans and previous plans does not exceed 5 percent for mature companies or 10 percent for growth companies.

Dimensional will generally vote against stock plans if upper limit of options that can be issued per year is not disclosed.

For deep-discounted stock option plans, Dimensional typically expects portfolio companies to disclose specific performance hurdles.

Capital Allocation

Dimensional will typically support well-justified dividend payouts that do not negatively impact the portfolio company's overall financial health.

Share Repurchase

Dimensional is typically supportive of portfolio company boards having discretion over share repurchases absent concerns with the company's balance sheet management, capital efficiency, buyback and dividend payout history, board composition, or shareholding structure.

Dimensional will typically support proposed repurchases that do not have a negative impact on shareholder value.

For repurchases of more than 10 percent of issue share capital, Dimensional expects the company to provide a robust explanation for the request.

Cross-Shareholding

Dimensional generally believes that portfolio companies should not allocate significant portions of their net assets to investments in companies for noninvestment purposes. For example, in order to strengthen relationships with customers, suppliers, or borrowers. Such cross-shareholding, whether unilateral or reciprocal, can compromise director independence, entrench management, and reduce director accountability to uninterested shareholders. Dimensional may vote against certain directors at companies with excessive cross-shareholdings.

Shareholder Rights Plans (Poison Pills)

Dimensional believes the market for corporate control, which can result in acquisitions that are accretive to shareholders, should be able to function without undue restrictions. Takeover defenses such as poison pills can lead to entrenchment and reduced accountability at the board level.

Indemnification and Limitations on Liability

Dimensional generally supports limitations on liability for directors and statutory auditors in ordinary circumstances.

Limit Legal Liability of External Auditors

Dimensional generally opposes limitations on the liability of external auditors.

Increase in Authorized Capital

Dimensional will typically support requests for increases of less than 100 percent of currently authorized capital, so long as the increase does not leave the portfolio company with less than 30 percent of the proposed authorized capital outstanding.

For increases that exceed these guidelines, Dimensional expects portfolio companies to provide a robust explanation for the increase.

Dimensional will generally not support requests for increases that will be used as an anti-takeover device.

Expansion of Business Activities

For well performing portfolio companies seeking to expand their business into enterprises related to their core business, Dimensional will typically support management requests to amend the company's articles to expand the company's business activities.
